I. Executive Summary

[VVV Consultants LLC]

I. Executive Summary

Ellinwood District Hospital – Barton County, KS - 2024 Community Health Needs Assessment (CHNA)

The previous Community Health Needs Assessment for Ellinwood District Hospital in Barton County, KS and its primary service area was completed in 2021. (Note: The Patient Protection and Affordable Care Act (ACA) requires non-profit hospitals to conduct a CHNA every three years and adopt an implementation strategy to meet the needs identified by the CHNA). The Round 5 Barton County, KS CHNA began in December of 2023 and was facilitated/created by VVV Consultants, LLC (Olathe, KS) staff under the direction of Vince Vandelaar, MBA.

Creating healthy communities requires a high level of mutual understanding and collaboration among community leaders. The development of this assessment brings together community health leaders, providers, and other residents to research and prioritize county health needs while documenting community health delivery success. This health assessment will serve as the foundation for community health improvement efforts for the next three years.

Important community CHNA Benefits for both the local hospital and the health department, are as follows: 1.) Increases knowledge of community health needs and resources 2.) Creates a common understanding of the priorities of the community’s health needs 3.) Enhances relationships and mutual understanding between and among stakeholders 4.) Provides a basis upon which community stakeholders can make decisions about how they can contribute to improving the health of the community 5.) Provides rationale for current and potential funders to support efforts to improve the health of the community 6.) Creates opportunities for collaboration in delivery of services to the community and 7.) Guides the hospital and local health department on how they can align their services and community benefit programs to best meet needs, and 8.) fulfills the Hospital's “Mission” to deliver.

County Health Area of Future Focus on Unmet Needs

Area Stakeholders held a community conversation to review, discuss, and prioritize health delivery. Below are two tables reflecting community views and findings:

2024 CHNA Priorities				
Unmet Health Needs - Ellinwood, KS District				
on behalf of Ellinwood Hospital and Clinic				
Town Hall - 03/22/24 (Attendees 25 / 96 Total Votes)				
#	Community Health Needs to Change and/or Improve	Votes	%	Accum
1	Mental Health (Diagnosis, Placement, Aftercare, Access to Providers)	16	16.7%	17%
2	Childcare (Safe & Affordable)	14	14.6%	31%
3	Senior Care	14	14.6%	46%
4	Social Emotional Learning (Expand School Program)	8	8.3%	54%
5	Access to Specialists (URL, ENDO, ENT)	7	7.3%	61%
6	Substance Abuse (Drug & Alcohol)	7	7.3%	69%
7	Suicide Prevention	7	7.3%	76%
8	Transportation (All)	7	7.3%	83%
Total Votes		96	100%	
Other needs receiving votes: Chronic Disease Management, Early Childcare ED, Healthy Foods (Affordable/Accessible), and Preventative Health

Key CHNA Round #5 Secondary Research Conclusions found:

KANSAS HEALTH RANKINGS: According to the 2023 Robert Woods Johnson County Health Rankings, Barton Co, KS, on average was ranked 71st in Health Outcomes, 78th in Health Factors, and 67th in Physical Environmental Quality out of the 105 Counties.

TAB 1. Barton County’s population is 28,080 (based on 2023 findings). About six percent (6.1%) of the population is under the age of 5, while the population that is over 65 years old is 21%. Children in single parent households make up a total of 26.3% compared to the rural norm of 19.7%, and 83.8% are living in the same house as one year ago.

TAB 2. In Barton County, the average per capita income is \$31,516 while 13.9% of the population is in poverty. The severe housing problem was recorded at 10.4% compared to the rural norm of 9.6%. Those with food insecurity in Barton County is 11.5%, and those having limited access to healthy foods (store) is 12.5%. Individuals recorded as having a long commute while driving alone is 9.7% compared to the norm of 25.1%.

TAB 3. Children eligible for a free or reduced-price lunch in Barton County is 61.9%. Findings found that 89.6% of Barton County ages 25 and above graduated from high school while 21.7% has a bachelor’s degree or higher (2022).

TAB 4. The percentage of births where prenatal care began in the first trimester was recorded at 82.1% compared to the rural norm of 80.1%. Additionally, the percentage of births with low birth weight was 6.9%. Barton County recorded 7.1% of births occurring to teens between ages 15-19. The percentage of births where mother smoked during pregnancy was 12.9% compared to the rural norm of 11.6%.

TAB 5. The Barton County primary care service coverage ratio is 1 provider (county based officed physician who is a MD and/or DO) to 1,833 residents. There were 2,712 preventable hospital stays compared to the rural norm of 2,640. The average median time patients spent in the emergency department before leaving was 110 minutes.

Secondary Research Continued

TAB 6. In Barton County, adults diagnosed with depression as of 2021 was 20.3%. The Mental Behavioral hospital admissions rate per 100k was 31.1 compared to the rural norm of 59.2. The age-adjusted suicide mortality rate per 100k was recorded at 23.3.

TAB 7a – 7b. Barton County has an obesity percentage of 35.7% and a physical inactivity percentage is 24.7%. The percentage of adults who smoke is 20.3%, while the excessive drinking percentage is 17.3%. The percentage of adults who have taken medication for high blood pressure is 81.5%, while their heart failure admissions rate was recorded at 16%. Those with kidney disease is 3.6% compared to the rural norm of 3.7%. The percentage of adult individuals who were recorded with cancer was 8.3% while adults recorded with diabetes (20+) is 9% compared to the rural norm of 8.9%.

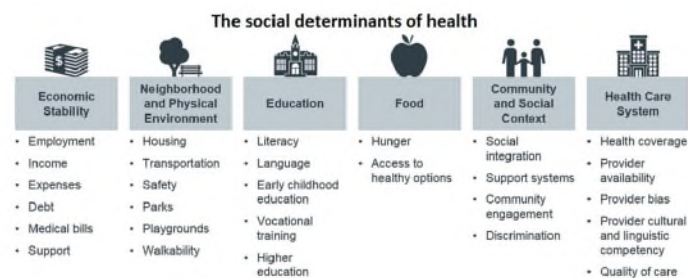

TAB 8. The adult uninsured rate for Barton County is 13.1% compared to the rural norm of only 12.9%.

TAB 9. The life expectancy rate in Barton County for males and females is roughly 77 years of age (76.9). Alcohol-impaired driving deaths for Barton County are 5.6% while age-adjusted Cancer Mortality rate per 100,000 is 156.7. The age-adjusted heart disease mortality rate per 100,000 is at 172.2.

TAB 10. A recorded 80.9% of Barton County has access to exercise opportunities. Continually, 36% of women have done a mammography screening compared to the rural norm of 42%. Adults recorded in Barton County who have had a regular routine check-up is 76.7%.

Social Determinants Views Driving Community Health: From Town Hall conversations the economy followed by provider access, community/social support, and neighborhood / physical environment are impacting community health, see Sec V for a detailed analysis.

Social Determinants Online Community Feedback – Ellinwood, KS (N=179)

KEY "Social Determinant Takeaways" to Improve Our Community Health	
More community support and programs for mental health and addiction. Affordable safe and quality housing...	Affordability, we need better paying jobs to afford regular living, not including how high our taxes and utilities are in Ellinwood.
Lack of education from childhood to early adult is severely lacking. Individuals are too far gone and created unhealthy habits and lifestyles	Childcare is huge. If we don't have childcare, we won't have staff to work for our hospital
Access to a larger area to exercise. A public gymnasium would be great and a larger fitness room to accommodate the community needs.	The town needs more options for food. There needs to be more restaurants available.

Key CHNA Round #5 Primary Research Conclusions found:

Community feedback from residents, community leaders, and providers (N=179) provided the following community insights via an online perception survey:

- Using a Likert scale, the average between Barton County stakeholders and residents that would rate the overall quality of healthcare delivery in their community as either very good or good; is 72.1%.
- Barton County stakeholders are very satisfied with the following services: ambulance services, chiropractic, inpatient hospital services, and pharmacy.
- When considering past CHNA needs, the following topics came up as the most pressing: childcare options, mental health services, drug / substance abuse, “Aging in Place” facilities, affordable housing, affordable healthcare, access to more specialists, senior care, economic development, improved hospital facility.

Ellinwood, KS - CHNA YR 2024 N=179					
Past CHNA Unmet Needs Identified		Ongoing Problem			Pressing
Rank	Ongoing Problem	Votes	%	Trend	Rank
1	Child Care (Access / Cost)	76	12.8%		1
2	Mental Health Services (Provider, Treatment, Aftercare)	72	12.1%		2
3	Drug / Substance Abuse	55	9.3%		3
4	"Aging in Place" Facilities	54	9.1%		4
5	Senior Care	48	8.1%		8
6	Access to More Specialists	46	7.8%		7

15	Improved Hospital Facility	19	3.2%		10
Totals		593	100.0%		

II. Methodology

[VVV Consultants LLC]

II. Methodology

a) CHNA Scope and Purpose

The federal Patient Protection and Affordable Care Act (ACA) requires that each registered 501(c)3 hospital conduct a Community Health Needs Assessment (CHNA) at least once every three years and adopt a strategy to meet community health needs. Any hospital that has filed a 990 is required to conduct a CHNA. IRS Notice 2011-52 was released in late fall of 2011 to give notice and request comments.

JOB #1: Meet/Report IRS 990 Required Documentation

1. A description of the community served by the facility and how the community was determined;
2. A description of the process and methods used to conduct the CHNA;
3. The identity of any and all organizations with which the organization collaborated and third parties that it engaged to assist with the CHNA;
4. A description of how the organization considered the input of persons representing the community (e.g., through meetings, focus groups, interviews, etc.), who those persons are, and their qualifications;
5. A prioritized description of all of the community needs identified by the CHNA and an explanation of the process and criteria used in prioritizing such needs; and
6. A description of the existing health care facilities and other resources within the community available to meet the needs identified through the CHNA.

Section 501(r) provides that a CHNA must take into account input from persons who represent the broad interests of the community served by the hospital facility, including individuals with special knowledge of or expertise in public health. Under the Notice, the persons consulted must also include: Government agencies with current information relevant to the health needs of the community and representatives or members in the community who are medically underserved, low-income, minority populations, and populations with chronic disease needs. In addition, a hospital organization may seek input from other individuals and organizations located in or serving the hospital facility's defined community (e.g., health care consumer advocates, academic experts, private businesses, health insurance and managed care organizations, etc.).

JOB #2: Making a CHNA Widely Available to the Public

The Notice provides that a CHNA will be considered to be "conducted" in the taxable year that the written report of the CHNA findings is made widely available to the public. The Notice also indicates that the IRS intends to pattern its rules for **making a CHNA "widely available to the public"** after the rules currently in effect for Form 990. Accordingly, an organization would make a **facility's written report** widely available by posting the final report on its website either in the form of (1) the report itself, in a readily accessible format or (2) a link to another organization's website, along with instructions for accessing the report on that website. *The Notice clarifies that an organization must post the CHNA for each facility until the date on which its subsequent CHNA for that facility is posted.*

JOB #3: Adopt an Implementation Strategy by Hospital

Section 501(r) requires a hospital organization to adopt an implementation strategy to meet the needs identified through each CHNA. The Notice defines an “implementation strategy” as a written plan that addresses each of the needs identified in a CHNA by either (1) describing how the facility plans to meet the health need or (2) identifying the health need as one that the facility does not intend to meet and explaining why the facility does not intend to meet it. A hospital organization may develop an implementation strategy in collaboration with other organizations, which must be identified in the implementation strategy. As with the CHNA, a hospital organization that operates multiple hospital facilities must have a separate written implementation strategy for each of its facilities.

Great emphasis has been given to work hand-in-hand with leaders from hospitals, the state health department and the local health department. A common approach has been adopted to create the CHNA, leading to aligned implementation plans and community reporting.

IRS Requirements Overview (Notice 2011-52)

Notice and Request for Comments Regarding the Community Health Needs Assessment Requirements for Tax-exempt Hospitals

Applicability of CHNA Requirements to “Hospital Organizations”

The CHNA requirements apply to “hospital organizations,” which are defined in Section 501(r) to include (1) organizations that operate one or more state-licensed hospital facilities, and (2) any other organization that the Treasury Secretary determines is providing hospital care as its principal function or basis for exemption.

How and When to Conduct a CHNA

Under Section 501(r), a hospital organization is required to conduct a CHNA for each of its hospital facilities once every three taxable years. ***The CHNA must take into account input from persons representing the community served by the hospital facility and must be made widely available to the public. The CHNA requirements are effective for taxable years beginning after March 23, 2012.*** As a result, a hospital organization with a June 30 fiscal year end must complete a CHNA full report every 3 years for each of its hospital facilities by fiscal June 30th.

Determining the Community Served

A CHNA must identify and assess the health needs of the **community served** by the hospital facility. Although the Notice suggests that geographic location should be the primary basis for defining the community served, it provides that the organization may also take into account the target populations served by the facility (e.g., children, women, or the aged) and/or the facility’s principal functions (e.g., specialty area or targeted disease). *A hospital organization, however, will not be permitted to define the community served in a way that would effectively circumvent the CHNA requirements (e.g., by excluding medically underserved populations, low-income persons, minority groups, or those with chronic disease needs).*

Persons Representing the Community Served

Section 501(r) provides that a CHNA must take into account input from **persons who represent the broad interests of the community** served by the hospital facility, including individuals with special knowledge of or expertise in public health. Under the Notice, the persons consulted must also include: (1) government agencies with current information relevant to the health needs of the community and (2) representatives or members of medically underserved, low-income, and minority populations, and populations with chronic disease needs, in the community. In addition, a hospital organization may seek input from other individuals and organizations located in or serving the hospital facility’s defined community (e.g., health care consumer advocates, academic experts, private businesses, health insurance and managed care organizations, etc.).

Required Documentation

The Notice provides that a hospital organization will be required to separately document the CHNA for each of its hospital facilities in a **written report** that includes the following information: 1) a description of the community served by the facility and how the community was determined; 2) a description of the process and methods used to conduct the CHNA; 3) the identity of any and all organizations with which the organization collaborated and third parties that it engaged to assist with the CHNA; 4) a description of how the organization considered the input of persons representing the community (e.g., through meetings, focus groups, interviews, etc.), who those persons are, and their qualifications; 5) a prioritized

description of all of the community needs identified by the CHNA and an explanation of the process and criteria used in prioritizing such needs; and 6) a description of the existing health care facilities and other resources within the community available to meet the needs identified through the CHNA.

Making a CHNA Widely Available to the Public

The Notice provides that a CHNA will be considered to be **“conducted”** in the taxable year that the written report of the CHNA findings is made widely available to the public. The Notice also indicates that the IRS intends to pattern its rules for making a CHNA “widely available to the public” after the rules currently in effect for Forms 990. *Accordingly, an organization would make a facility’s written report widely available by posting on its website either (1) the report itself, in a readily accessible format, or (2) a link to another organization’s website, along with instructions for accessing the report on that website. The Notice clarifies that an organization must post the CHNA for each facility until the date on which its subsequent CHNA for that facility is posted.*

How and When to Adopt an Implementation Strategy

Section 501(r) requires a hospital organization to adopt an implementation strategy to meet the needs identified through each CHNA. **The Notice defines an “implementation strategy” as a written plan that addresses each of the needs identified in a CHNA by either (1) describing how the facility plans to meet the health need, or (2) identifying the health need as one that the facility does not intend to meet and explaining why the facility does not intend to meet it.** A hospital organization may develop an implementation strategy in collaboration with other organizations, which must be identified in the implementation strategy. As with the CHNA, a hospital organization that operates multiple hospital facilities must have a separate written implementation strategy for each of its facilities.

Under the Notice, an implementation strategy is considered to be “adopted” on the date the strategy is approved by the organization’s board of directors or by a committee of the board or other parties legally authorized by the board to act on its behalf. Further, the formal adoption of the implementation strategy must occur by the end of the same taxable year in which the written report of the CHNA findings was made available to the public. For hospital organizations with a June 30 fiscal year end, that effectively means that the organization must complete and appropriately post its first CHNA no later than its fiscal year ending June 30, 2013, and formally adopt a related implementation strategy by the end of the same tax year. *This final requirement may come as a surprise to many charitable hospitals, considering Section 501(r) contains no deadline for the adoption of the implementation strategy.*

IRS Community Health Needs Assessment for Charitable Hospital Organizations - Section 501(0)(3) Last Reviewed or Updated: 21-Aug-2020

In addition to the general requirements for tax exemption under Section 501(c)(3) and Revenue Ruling 69-545 hospital organizations must meet the requirements imposed by Section 501(r) on a facility-by-facility basis in order to be treated as an organization described in Section 501(c)(3). These additional requirements are:

1. Community Health Needs Assessment (CHNA) - Section 501(r)(3),
2. Financial Assistance Policy and Emergency Medical Care Policy - Section 501(r)(4),
3. Limitation on Charges - Section 501(r)(5), and
4. Billing and Collections - Section 501(r)(6).

Medically underserved populations include populations experiencing health disparities or that are at risk of not receiving adequate medical care because of being uninsured or underinsured, or due to geographic, language, financial, or other barriers. Populations with language barriers include those with limited English proficiency. Medically underserved populations also include those living within a hospital facility’s service area but not receiving adequate medical care from the facility because of cost, transportation difficulties, stigma, or other barriers.

Additionally, in determining its patient populations for purposes of defining its community, a hospital facility must take into account all patients without regard to whether (or how much) they or their insurers pay for the care received or whether they are eligible for assistance under the hospital facility's financial assistance policy. If a hospital facility consists of multiple buildings that operate under a single state license and serve different geographic areas or populations, the community served by the hospital facility is the aggregate of these areas or populations.

Additional Sources of Input

In addition to soliciting input from the three required sources, a hospital facility may solicit and take into account input received from a broad range of persons located in or serving its community. This includes, but is not limited to:

- Health care consumers and consumer advocates
- Nonprofit and community-based organizations
- Academic experts
- Local government officials
- Local school districts
- Health care providers and community health centers
- Health insurance and managed care organizations,
- Private businesses, and
- Labor and workforce representatives.

Although a hospital facility is not required to solicit input from additional persons, it must take into account input received from any person in the form of written comments on the most recently conducted CHNA or most recently adopted implementation strategy.

Collaboration on CHNA Reports

A hospital facility is permitted to conduct its CHNA in collaboration with other organizations and facilities. This includes related and unrelated hospital organizations and facilities, for-profit and government hospitals, governmental departments, and nonprofit organizations.

In general, every hospital facility must document its CHNA in a separate CHNA report unless it adopts a joint CHNA report. However, if a hospital facility is collaborating with other facilities and organizations in conducting its CHNA, or if another organization has conducted a CHNA for all or part of the hospital facility's community, portions of a hospital facility's CHNA report may be substantively identical to portions of the CHNA reports of a collaborating hospital facility or other organization conducting a CHNA, if appropriate under the facts and circumstances.

If two hospital facilities with overlapping, but not identical, communities collaborate in conducting a CHNA, the portions of each hospital facility's CHNA report relevant to the shared areas of their communities might be identical. So, hospital facilities with different communities, including general and specialized hospitals, may collaborate and adopt substantively identical CHNA reports to the extent appropriate. However, the CHNA reports of collaborating hospital facilities should differ to reflect any material differences in the communities served by those hospital facilities. Additionally, if a governmental public health department has conducted a CHNA for all or part of a hospital facility's community, portions of the hospital facility's CHNA report may be substantively identical to those portions of the health department's CHNA report that address the hospital facility's community.

Collaborating hospital facilities may produce a joint CHNA report as long as all of the collaborating hospital facilities define their community to be the same and the joint CHNA report contains all of the same basic information that separate CHNA reports must contain. Additionally, the joint CHNA report must be clearly identified as applying to the hospital facility.

Joint Implementation Strategies

As with the CHNA report, a hospital facility may develop an implementation strategy in collaboration with other hospital facilities or other organizations. This includes but is not limited to related and unrelated

hospital organizations and facilities, for-profit and government hospitals, governmental departments, and nonprofit organizations. In general, a hospital facility that collaborates with other facilities or organizations in developing its implementation strategy must still document its implementation strategy in a separate written plan that is tailored to the particular hospital facility, taking into account its specific resources. However, a hospital facility that adopts a joint CHNA report may also adopt a joint implementation strategy. With respect to each significant health need identified through the joint CHNA, the joint implementation strategy must either describes how one or more of the collaborating facilities or organizations plan to address the health need or identify the health need as one the collaborating facilities or organizations do not intend to address. It must also explain why they do not intend to address the health need.

A joint implementation strategy adopted for the hospital facility must also: Be clearly identified as applying to the hospital facility, Clearly identify the hospital facility's role and responsibilities in taking the actions described in the implementation strategy as well as the resources the hospital facility plans to commit to such actions, and Include a summary or other tool that helps the reader easily locate those portions of the joint implementation strategy that relate to the hospital facility.

Adoption of Implementation Strategy

An authorized body of the hospital facility must adopt the implementation strategy. See the discussion of the Financial Assistance Policy below for the definition of an authorized body. This must be done on or before the 15th day of the fifth month after the end of the taxable year in which the hospital facility finishes conducting the CHNA. This is the same due date (without extensions) of the Form 990.

Acquired Facilities A hospital organization that acquires a hospital facility (through merger or acquisition) must meet the requirements of Section 501(r)(3) with respect to the acquired hospital facility by the last day of the organization's second taxable year beginning after the date on which the hospital facility was acquired. In the case of a merger that results in the liquidation of one organization and survival of another, the hospital facilities formerly operated by the liquidated organization will be considered "acquired," meaning they will have until the last day of the second taxable year beginning after the date of the merger to meet the CHNA requirements. Thus, the final regulations treat mergers equivalently to acquisitions.

New Hospital Organizations

An organization that becomes newly subject to the requirements of Section 501(r) because it is recognized as described in Section 501(c)(3) and is operating a hospital facility must meet the requirements of Section 501(r)(3) with respect to any hospital facility by the last day of the second taxable year beginning after the latter of: The effective date of the determination letter recognizing the organization as described in Section 501(c)(3), or The first date that a facility operated by the organization was licensed, registered, or similarly recognized by a state as a hospital.

New Hospital Facilities

A hospital organization must meet the requirements of Section 501(r)(3), with respect to a new hospital facility it operates by the last day of the second taxable year beginning after the date the facility was licensed, registered, or similarly recognized by its state as a hospital.

Transferred/Terminated Facilities

A hospital organization is not required to meet the requirements of Section 501(r)(3) with respect to a hospital facility in a taxable year if the hospital organization transfers all ownership of the hospital facility to another organization or otherwise ceases its operation of the hospital facility before the end of the taxable year. The same rule applies if the hospital facility ceases to be licensed, registered, or similarly recognized as a hospital by a state during the taxable year. By extension, a government hospital organization that voluntarily terminates its Section 501(c)(3) recognition as described in Rev. Proc. 2018-5 (updated annually) is no longer considered a hospital organization for purposes of Section 501(r) and therefore is not required to meet the CHNA requirements during the taxable year of its termination.

Public Health Criteria:

Domain 1: Conduct and disseminate assessments focused on population health status and public health issues facing the community.

Domain 1 focuses on the assessment of the health of the population in the jurisdiction served by the health department. The domain includes systematic monitoring of health status; collection, analysis, and dissemination of data; use of data to inform public health policies, processes, and interventions; and participation in a process for the development of a shared, comprehensive health assessment of the community.

DOMAIN 1 includes 4 STANDARDS:

- **Standard 1.1** - Participate in or Conduct a Collaborative Process Resulting in a Comprehensive Community Health Assessment
- **Standard 1.2** - Collect and Maintain Reliable, Comparable, and Valid Data That Provide Information on Conditions of Public Health Importance and on the Health Status of the Population
- **Standard 1.3** - Analyze Public Health Data to Identify Trends in Health Problems, Environmental Public Health Hazards, and Social and Economic Factors That Affect the Public's Health
- **Standard 1.4** - Provide and Use the Results of Health Data Analysis to Develop Recommendations Regarding Public Health Policy, Processes, Programs, or Interventions

Required CHNA Planning Process Requirements:

- a. Participation by a wide range of community partners.
- b. Data / information provided to participants in CHNA planning process.
- c. Evidence of community / stakeholder discussions to identify issues & themes. Community definition of a "healthy community" included along with list of issues.
- d. Community assets & resources identified.
- e. A description of CHNA process used to set priority health issues.

Seven Steps of Public Health Department Accreditation (PHAB):

1. Pre-Application
2. Application
3. Document Selection and Submission
4. Site Visit
5. Accreditation Decision
6. Reports
7. Reaccreditation

MAPP Process Overview

Mobilizing for Action through Planning and Partnerships (MAPP) is a flexible strategic planning tool for improving the health and quality of life for the community. Like most strategic planning, MAPP involves organizing partners, creating a vision and shared values, collecting data, identifying areas for improvement, and developing goals and strategies to address them. Through collaboration with partners and the community, MAPP allows us to focus our efforts and work on issues to strengthen the local public health system.

The MAPP process includes the following six phases. It's important to note that MAPP has no set end point and will continue throughout the life cycle of the Community Health Improvement Plan (CHIP).

1. In this first phase, **Organize for Success/Partnership Development**, various sectors of the community with established relationships are reviewed, leading to the identification of areas for partnership development and creation of new relationships to enhance the MAPP process.
2. In the second phase, **Visioning**, a shared community vision and common values for the MAPP process are created.
3. In the third phase, **Four MAPP Assessments**, data is collected from existing and new sources about the health of our community, which results in a Community Health Assessment (CHA).
4. In the fourth phase, **Identify Strategic Issues**, community partners and health professionals select issues based on data collected from the third phase that are critical to the local public health system and align with the vision from the second phase.
5. In the fifth phase, **Formulate Goals and Strategies**, potential ways to address the strategic issues are identified by the community along with the setting of achievable goals. The final result is a Community Health Improvement Plan (CHIP).
6. The sixth and final phase of the MAPP process is the **Action Cycle**, which is where the work happens for meeting the objectives set in the previous phase. Through these collaborative efforts, the health of the community is improved.

Social Determinants of Health

What Are Social Determinants of Health?

[Social determinants of health \(SDOH\)external icon](#) are defined as the conditions in which people are born, grow, live, work, and age. SDOH are shaped by the distribution of money, power, and resources throughout local communities, nations, and the world. Differences in these conditions lead to health inequities or the unfair and avoidable differences in health status seen within and between countries.

[Healthy People 2030external icon](#) includes SDOH among its leading health indicators. One of Healthy People 2030's five overarching goals is specifically related to SDOH: Create social, physical, and economic environments that promote attaining the full potential for health and well-being for all.

Through broader awareness of how to better incorporate SDOH throughout the multiple aspects of public health work and the [10 Essential Public Health Services](#), public health practitioners can transform and strengthen their capacity to advance health equity. Health equity means that everyone has a fair and just opportunity to be as healthy as possible. This requires removing obstacles to health, such as poverty, discrimination, and their consequences, including powerlessness and lack of access to good jobs with fair pay, quality education and housing, safe environments, and health care.

Round #5 CHNA focuses on Social Determinants & Health Equity.

Centers for Medicare & Medicaid Services Health Equity Domains

CMS' Hospital Commitment to Health Equity has introduced two equity-focused process measures in 2023: screening for Social Drivers of Health (SDOH-01) and Screen Positive Rate for Social Drivers of Health (SDOH-02). (Although these measures will not be required until 2024, it is highly recommended that hospitals begin tracking them in 2023.)

Domain 1: Equity as a Strategic Priority

The hospital has a strategic plan for advancing health care equity that accomplishes the following:

- Identifies priority populations who currently experience health disparities.
- Establishes health care equity goals and discrete action steps to achieve them.
- Outlines specific resources that are dedicated to achieving equity goals.
- Describes an approach for engaging key stakeholders, such as community partners.

Domain 2: Data Collection

The hospital is engaging in the following three key data collection activities.

- Collecting demographic information, including self-reported race and ethnicity, and SDOH information, on a majority of patients
- Training staff in the culturally sensitive collection of demographics and SDOH information
- Inputting patient demographic and/ or SDOH information into structured interoperable data elements using a certified electronic health record technology.

Domain 3: Data Analysis

The hospital stratifies key performance indicators by demographic and/ or SDOH variables to identify equity gaps and includes this information on hospital performance dashboards.

Domain 4: Quality Improvement

The hospital participates in local, regional and or national quality improvement activities that are focused on reducing health disparities.

Domain 5: Leadership Engagement

The hospital's senior leadership, including the chief executives and the entire hospital board of trustees, demonstrates a commitment to equity through the following two activities.

- Annual reviews of the hospital's strategic plan for achieving health equity
- Annual reviews of key performance indicators stratified by demographic and/ or social factors.

The Joint Commission (TJC) Elements of Performance - Regulatory and Accreditation Requirements Related to Health Equity and Social Determinants of Health

New and revised TJC requirements to reduce health care disparities went into effect Jan. 1, 2023. Below are the six elements of performance.

Element of Performance 1:

The organization designates an individual to lead activities aimed at reducing healthcare disparities. **(Hospital Responsibility)**

Element of Performance 2:

The organization assesses the patient's health-related social needs and provides information about community resources and support services. **(CHNA full report- Section I and III)**

Examples of health-related social needs may include the following:

- Access to transportation
- Difficulty paying for prescriptions or medical bills.
- Education and literacy
- Food insecurity
- Housing insecurity

Element of Performance 3:

The organization identifies healthcare disparities in its patient population by stratifying quality and safety data. **(CHNA Town Hall)** Examples of sociodemographic characteristics may include but are not limited to the following: Age, Gender, Preferred Language, Race, and ethnicity.

Element of Performance 4:

The organization develops a written action plan that describes how it will address at least one of the healthcare disparities identified. **(CHNA IMPL Development Plan)**

Element of Performance 5:

The organization acts when it does not achieve or sustain goal(s) in its action plan to reduce health care disparities.

Element of Performance 6:

At least annually, the organization informs key stakeholders, identifying leaders, licensed practitioners, and staff, about its progress in reducing identified healthcare disparities. **(Hospital Responsibility)**

II Methodology

b) Collaborating CHNA Parties

Working together to improve community health takes collaboration. Listed below is an in-depth profile of the local hospital & Health Department CHNA Partners:

Ellinwood District Hospital Profile

605 N Main St, Ellinwood, KS 67544

Administrator: Kile Magner

History: A \$75,000 bond issue election passed on March 21, 1951 allowed the board to build the hospital, although donations were necessary to equip the facility. The dedication was held October 19, 1952 and the hospital opened the next day.

It was designed for 24 patients, plus 8 cribs in the nursery. In 1952 a semi-private room cost \$9.50 a day and a private room was \$14.00. The east wing and Sisters' home (currently Ellinwood Hospital Clinic) was built in 1953. The north Medical Arts building was constructed in 1957. The sisters of St. Joseph, Wichita originally ran the hospital from 1952-1961. Due to financial difficulties the sisters terminated their agreement with Ellinwood District Hospital.

Great Plains Lutheran Hospitals, Inc began operation of the facility on April 1, 1962. A total of 1,211 babies were born from 1952 until deliveries were discontinued in August 1972. Since that time Great Plains was reorganized and renamed GPHA, Inc. There are 5 board members of Ellinwood District Hospital, an average number of employees is 70. The hospital's status was changed to Critical Access Hospital in 1998 after being designated a 12-bed Rural Primary Care Hospital.

Today Ellinwood District Hospital is a 25-bed Critical Access Hospital with 2 ER beds and the Facility provides inpatient acute care, skilled swing bed, and intermediate swing bed care. Facility offers numerous outpatient services including 24-hour emergency rooms, full-service laboratory, radiology, CT, mobile mammography, mobile US/sonography, mobile MRI, Physical and Occupational therapy for all ages.

Ellinwood District Hospital offers the following services to its community:

- 24-Hour Emergency Room
- Outpatient Procedures
- Physical / Occupational / Speech Therapy
- Full-Service Laboratory
- Radiology
- Dietary Services

Barton County Health Department Profile

1300 Kansas Avenue, Great Bend, KS 67530

Administrator: Joel Dermott

Public health protects and improves communities by: assuring every family has choices for health and wellness, preventing barriers for all Community members to have equal and fair access to food, activity, healthcare, employment and transportation, preventing epidemics and the spread of disease; promoting healthy lifestyles for children and families; protecting against hazards in homes, work, communities and the environment; assuring high quality health care services; and preparing for and responding to emergencies. Public Health is identifying gaps in a community and providing services to fill these gaps until an alternative is available. There is little daily life not related to or influenced by public health. Public health is everywhere.

PUBLIC HEALTH:

- Prevents epidemics and spread of disease.
- Protects against environmental hazards.
- Prevents injuries.
- Promotes and encourages healthy behaviors.
- Responds to disaster and assists communities in recovery.
- Assures the quality and accessibility of health services.

Hours:

Monday	9:00 am - 5:30 pm
Tuesday	7:30 am - 5:30 pm
Wednesday	7:30 am - 5:30 pm
Thursday	7:30 am - 7:30 pm
Friday	7:30 am - 5:30 pm

Barton County Health Department Services:

Communicable Diseases—Tuberculosis, Sexually Transmitted Diseases, Seasonal Influenza, MRSA, Rabies.

Prevention—Poverty Reduction, Trauma informed choices and educational interventions, Chronic Disease Risk Reduction, Drug & Alcohol Prevention, Suicide Prevention, Be Well Barton County, Central Kansas Breastfeeding Coalition.

Immunizations—All vaccines

Continue

Community Outreach Services – Specialized services designed for the needs of the Community. Contact the BCHD for details on what services are offered.

Emergency Preparedness—Planning for and responding to Emergencies in the County and offering assistance to other counties as needed.

Family Planning and Birth Control—Annual Physical Exams and Pap Test, Pregnancy Testing, Counseling in Contraceptive Methods, Contraceptive Supplies, Counseling and Referral for Infertility and Problem Pregnancy, Health Information and Education, School and Community Education Programs, Appropriate Referrals.

Chronic Disease Risk Reduction—Tobacco Use Prevention & Cessation, Improving Nutrition & Access to Healthy Foods, Increasing Physical Activity, Central Kansas Partnership & Task Force.

Child Health— Educational opportunities for parent / child interactions, Physical Examination, Lead Screening, Nutritional Counseling, Immunizations, Well Child Physical, WIC Program, Kan-Be-Healthy Exam, Referrals to Other Services.

Adult Health- Well-women exams, Healthy Living Lab Services, Blood Pressure checks, weights and heights.

Stepping On - Senior education on Fall Prevention

Maternal and Child Health—Social and educational support for pregnant women and their infants the first year after delivery including: Prenatal Clinics, Prenatal Risk Reduction, Home Visits by a nurse & social worker, Healthy Start Home Visitor Program, Well Child Exams targeting children without access to doctors (up to 5yrs), and KAN BE HEALTHY Assessments for eligible children (required by Medicaid).

WIC-Women, Infants, & Children — Nutritional Program for Pregnant women and children under the age of 5 years, Maternal & Infant Health and Education, Breast Feeding Peer Counselor, Healthy Start Home Visitor.

Child Care Licensing — Recruiting and education Child Care Licensing providers, Investigation of child care provider and unlicensed provider complaints, monthly orientation classes, quarterly newsletters.

II. Methodology

b) Collaborating CHNA Parties Continued

Consultant Qualifications:

VVV Consultants LLC 601 N. Mahaffie, Olathe, KS 66061 (913) 302-7264

VVV Consultants LLC is an Olathe, KS based “boutique” healthcare consulting firm specializing in Strategy, Research and Business Development services. To date we have completed 83 unique community CHNA’s in KS, MO, IA, NE and WI (references found on our website VandehaarMarketing.com)

Introduction: Who We Are

Background and Experience

VVV Consultants LLC
601 N Mahaffie
Olathe, KS 66061

Core Values

Engaged
Reliable
Skilled ---
Innovative
Accountable

Vince Vandehaar, MBA – Principal

VVV Consultants LLC – *start 1/1/09* *

- Adjunct Full Professor @ Avila & Webster Universities
- 40+ year veteran marketer, strategist and researcher
- Saint Luke’s Health System, BCBS of KC,
- Tillinghast Towers Perrin, and Lutheran Mutual Life
- Hometown: Bondurant IA

Olivia G Hewitt BA– Associate Consultant

VVV Consultants LLC – *May 2024*

- > Emporia State University – Communications / Marketing
- > Hometown: Olathe, KS

Cassandra Kahl, BHS MHA– Director, Project Management

VVV Consultants LLC – *Nov 2020*

- > University of Kansas – Health Sciences
- > Park University - MHA
- > Hometown: Maple, WI

VVV Consultants LLC (EIN 27-0253774) began as “VVV Research & Development INC” in early 2009 and converted to an LLC on 12/24/12. Web: VandehaarMarketing.com

Our Mission: to research, facilitate, train, create processes to improve market performance, champion a turnaround, and uncover strategic “critical success” initiatives.

Our Vision: to meet today’s challenges with the voice of the market solutions.

Our Values:

Engaged – we are actively involved in community relations & boards.

Reliable – we do what we say we are going to do.

Skilled – we understand business because we’ve been there.

Innovative – we are process-driven & think “out of the box.”

Accountable – we provide clients with a return on their investment.

II. Methodology

c) CHNA and Town Hall Research Process

Round #5 Community Health Needs Assessment (CHNA) process began in December of 2023 for Ellinwood District Hospital in Barton County, KS to meet Federal IRS CHNA requirements.

In early December 2023, a meeting was called amongst the Ellinwood District Hospital leaders to review CHNA collaborative options. <Note: VVV Consultants LLC from Olathe, KS was asked to facilitate this discussion with the following agenda: VVV CHNA experience, review CHNA requirements (regulations) and discuss CHNA steps/options to meet IRS requirements and to discuss next steps.> Outcomes from discussion led to the Ellinwood District Hospital to request VVV Consultants LLC to complete a CHNA IRS aligned comprehensive report.

VVV CHNA Deliverables:

- Document Hospital Primary Service Area - meets the 80% Patient Origin Rule.
- Uncover / document basic secondary research county health data, organized by 10 tabs.
- Conduct / report CHNA Community Check-in Feedback Findings (primary research).
- Conduct a Town Hall meeting to discuss with community secondary & primary data findings leading to determining (prioritizing) county health needs.
- Prepare & publish CHNA report which meets ACA requirements.

To ensure proper PSA Town Hall representation (that meets the 80% Patient Origin Rule), a patient origin three-year summary was generated documenting patient draw by zips as seen below:

<i>Source: Hospital Internal Records</i>						
Ellinwood Dis Hosp- Defined Primary Serv Area KHA				Overall (IP/ER/OP/PC)		
		TOTALS	23,284			
#	ZIP	City	County	Total 3YR	%	ACCUM
1	67526	Ellinwood	Barton	17,115	73.5%	73.5%
2	67530	Great Bend	Barton	2,907	12.5%	86.0%

To meet IRS aligned CHNA requirements and meet Public Health accreditation criteria stated earlier, a four-phase methodology was followed:

Phase I—Discovery:

Conduct a 30-minute conference call with the CHNA county health department and hospital clients. Review / confirm the CHNA calendar of events, explain / coach clients to complete the required participant database, and schedule / organize all Phase II activities.

Phase II—Qualify Community Need:

A) Conduct secondary research to uncover the following historical community health status for the primary service area. Use Kansas Hospital Association (KHA), Vital Statistics, Robert Wood Johnson County Health Rankings, etc. to document current state of county health organized as follows:

Health Indicators - Secondary Research
TAB 1. Demographic Profile
TAB 2. Economic Profile
TAB 3. Educational Profile
TAB 4. Maternal and Infant Health Profile
TAB 5. Hospital / Provider Profile
TAB 6. Behavioral / Mental Health Profile
TAB 7. High-Risk Indicators & Factors
TAB 8. Uninsured Profile
TAB 9. Mortality Profile
TAB 10. Preventative Quality Measures

Phase III—Quantify Community Need:

Conduct a 90-minute Town Hall meeting with required community primary service area residents. At each Town Hall meeting, CHNA secondary data will be reviewed, facilitated group discussion will occur and a group ranking activity to determine the most important community unmet health needs was administered.

Phase IV—Complete Data Analysis and Create Comprehensive Community Health Needs Assessment:

Complete full documentation to create each CHNA section documented in the Table of Contents. Publish hard copy reports (2) for client usage plus create a full CHNA report pdf to be posted on the hospital website to meet government CHNA regulation criteria.

Specific project CHNA roles, responsibilities, and timelines are documented in the following calendar.

Ellinwood District Hospital			
VVV CHNA Round #5 Work Plan - Year 2024			
Project Timeline & Roles as of 01/19/24			
Step	Timeframe	Lead	Task
1	9/1/2023	VVV / Hosp	Sent Leadership information regarding CHNA Wave #5 for review 9/1/23. Zoom Overview meeting 10/12/23
2	11/6/2023	Hosp	Select CHNA Wave #5 Option B. Approve (sign) VVV CHNA quote
3	12/19/2023	VVV	Send out REQCommInvite Excel file. HOSP & HLTH Dept to fill in PSA Stakeholders Names /Address /Email
4	12/19/2023	VVV	Hold Kick-off Meeting & Request Hospital Client to send KHA PO reports for FFY 18, 19 and 20. In addition, request hospital to complete 3 year historical PSA IP/OP/ER/Clinic patient origin file (Use ZipPSA_3yrPOorigin.xls)
5	12/19/2023	VVV	Prepare CHNA Wave#5 Stakeholder Feedback "online link". Send link for hospital review.
6	Jan-Feb 2024	VVV	Assemble & complete Secondary Research - Find / populate 10 TABS. Create Town Hall ppt for presentation.
7	1/8/2024	VVV / Hosp	Prepare/send out PR story #1 / E Mail Request announcing upcoming CHNA work to CEO to review/approve.
8	1/12/2024	VVV / Hosp	Place PR story to local media CHNA survey announcing "online CHNA Wave #5 feedback". Request public to participate. Send E Mail request to local stakeholders
9	1/19/2024	VVV	Launch / conduct online survey to stakeholders: Hospital will e-mail invite to participate to all stakeholders. Cut-off 2/23/2024 for Online Survey
10	2/20/2024	Hosp	Prepare/send out Community TOWN HALL invite letter and place local AD.
11	2/26/2024	VVV / Hosp	Prepare/send out PR story #2 to local media announcing upcoming Town Hall. VVV will mock-up PR release to media sources.
12	3/14/2024	ALL	Conduct conference call (time TBD) with Hospital / Public HLTH to review Town Hall data / flow
13	Friday 3/22/2024	VVV	Conduct CHNA Town Hall. Lunch 11:30am-1pm (location TBD) Review & Discuss Basic health data plus RANK Health Needs.
14	On or Before 05/14/2024	VVV	Complete Analysis - Release Draft 1- seek feedback from Leaders (Hospital & Health Dept.)
15	On or Before 05/21/2024	VVV	Produce & Release final CHNA report. Hospital will post CHNA online (website).
16	8/29/2024	Hosp	Conduct Client Implementation Plan PSA Leadership meeting
17	On or Before 9/30/24	Hosp	Hold Board Meetings discuss CHNA needs, create & adopt an implementation plan. Communicate CHNA plan to community.

Community Health Needs Assessment (CHNA) Onsite Town Hall Discussion Agenda

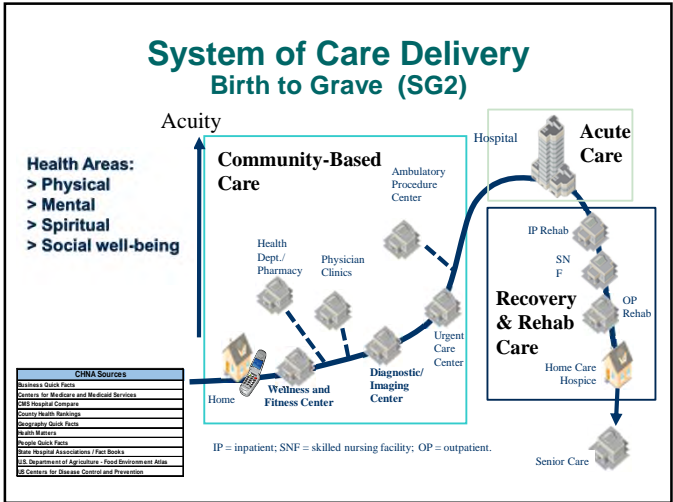

- > **Opening Welcome / Introductions / Review CHNA Purpose and Process (5 mins)**
- > **Discuss New Focus: Social Determinants of Health (5 mins)**
- > **Review Current Service Area "Health Status"**
 - Review Secondary Health Indicator Data (10 TABs)*
 - Review Community Online Feedback (30 mins)*
- > **Collect Community Health Perspectives**
 - Share Table Reflections to verify key takeaways*
 - Conduct an Open Community Conversation / Stakeholder Vote to determine the Most Important Unmet Needs (45 mins)*
- > **Close / Next Steps (5 mins)**

2

Town Hall Participation / Purpose & Parking Lot

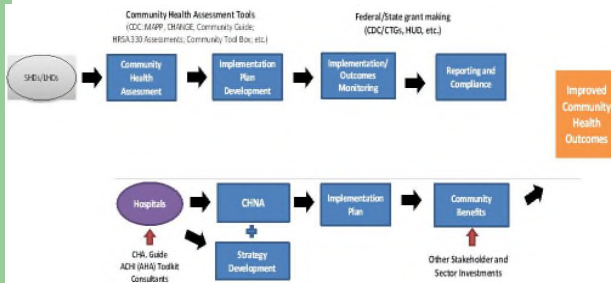

- ALL attendees practice "Safe Engagement", working together in table teams.
- ALL attendees are welcome to share. Engaging conversation (No right or wrong answer)
- Request ALL to Take Notes of important health indicators
- Please give truthful responses – Serious community conversation.
- Discuss (Speak up) to uncover unmet health needs
- Have a little fun along the way

3

4

Community Health Needs Assessment Joint Process: Hospital & Local Health Providers

5

A Conversation with the Community & Stakeholders

Community Stakeholder – An Inclusive Conversation

Consumers: Uninsured/underinsured people, Members of at-risk populations, Parents, caregivers and other consumers of health care in the community, and Consumer advocates.

Community leaders and groups: The hospital organization's board members, Local clergy and congregational leaders, Presidents or chairs of civic or service clubs – Chamber of Commerce, veterans' organizations, Lions, Rotary, etc., Representatives from businesses – owners/CEO's of large businesses (local or large corporations with local branches), Business people & merchants (e.g., who sell tobacco, alcohol, or other drugs), Representatives from organized labor, Political, appointed and elected officials, Foundations, United Way organizations. And other "community leaders."

Public and other organizations: Public health officials, Directors or staff of health and human service organizations, City/Community planners and development officials, Individuals with business and economic development experience, Welfare and social service agency staff, Housing advocates - administrators of housing programs: homeless shelters, low-income-family housing and senior housing, Education officials and staff - school superintendents, principals and teachers, Public safety officials, Staff from state and area agencies on aging, Law enforcement agencies - Chiefs of police, Local colleges and universities, Coalitions working on health or other issues.

Other providers: Physicians, Leaders in other not-for-profit health care organizations, such as hospitals, clinics, nursing homes and home-based and community-based services, Leaders from Catholic Charities and other faith-based service providers, Mental health providers, Oral health providers, Health insurers, Parish and congregational nursing programs, Other health professionals

6

II. Review of a CHNA

- What is a Community Health Needs Assessment (CHNA)..?
 - Systematic collection, assembly, analysis, and dissemination of information about the health of the community.
- A CHNA's role is to....
 - Identify factors that affect the health of a population and determine the availability of resources to adequately address those factors.
- Purpose of a CHNA – Why Conduct One?
 - Determine health-related trends and issues of the community
 - Understand / evaluate health delivery programs in place.
 - Meet Federal requirements – both local hospital and health department
 - Develop Implementation Plan strategies to address unmet health needs (4-6 weeks after Town Hall)

7

CHNA Written Report Documentation to meet IRS 990 CHNA Requirements: Table of Contents

- A description of the community served
- A description of the CHNA process
- The identity of any and all organizations and third parties which collaborated to assist with the CHNA
- A description of how the organization considered the input of persons representing the community (e.g., through meetings, focus groups, interviews, etc.), who those persons are, and their qualifications
- A prioritized description of all of the community needs identified by the CHNA.
- A description of the existing healthcare facilities and other resources within the community available to meet the needs identified through the CHNA

8

IV. Review Current County Health Status: Secondary Data by 10 Tab Categories with a focus on Social Determinants with a Local Norm & State Rankings

Trends: **Good** **Same** **Poor**

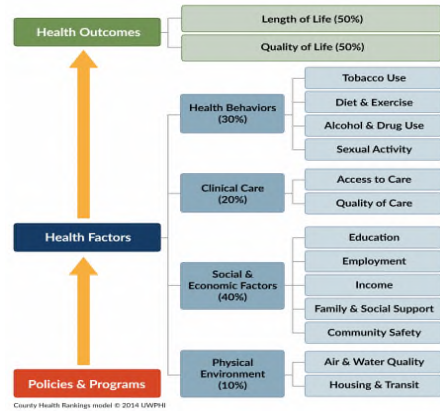

Health Indicators - Secondary Research

- TAB 1. Demographic Profile
- TAB 2. Economic Profile
- TAB 3. Educational Profile
- TAB 4. Maternal and Infant Health Profile
- TAB 5. Hospital / Provider Profile
- TAB 6. Behavioral / Mental Health Profile
- TAB 7. High-Risk Indicators & Factors
- TAB 8. Uninsured Profile
- TAB 9. Mortality Profile
- TAB 10. Preventative Quality Measures

9

County Health Rankings - 2023

Robert Wood Johnson Foundation and University of WI Health Institute

County Health Rankings model © 2014 UWPRB

10

1	Focus Area	Measure	Description	2b	Focus Area	Measure	Description					
Air and water quality (5%)	Air pollution - particulate matter	The average daily measure of fine particulate matter in micrograms per cubic meter (PM2.5) in a county		Community safety (5%)	Violent crime	Violent crime rate per 100,000 population						
								Drinking water violation	Percent of population potentially exposed to water exceeding a violation limit during the past year	Injury deaths	Injury mortality per 100,000	
Housing and transit (5%)	Severe housing problems	Percent of households with at least 1 of 4 housing problems: overcrowding, high housing costs, or lack of kitchen or plumbing facilities		3	Health Outcomes (30%)	3a	Health Behaviors					
								Driving alone to work	Percent of the workforce that drives alone to work	Tobacco use	Adult smoking	Percent of adults that report smoking ≥ 100
2a	Clinical Care (20%)	Access to care (10%)	Uninsured	Percent of population under age 65 without health insurance	Food environment index	Index of factors that contribute to a healthy food environment						
							Primary care physicians	Ratio of population to primary care physicians	Physical health	Percent of adults, aged 20 and over reporting access to exercise opportunities		
											Dentist	Ratio of population to dentist
Quality of care (10%)	Mental health providers	Ratio of population to mental health providers	Preventable hospital stays	Hospitalization rate for ambulatory-care sensitive conditions per 1,000 Medicare enrollees	Sexual activity (5%)	Sexually transmitted infections	Chlamydia rate per 100,000 population, ages 15-19					
								Diabetic screening	Percent of diabetic Medicare enrollees that receive diabetic screening	Teen births	Teen birth rate per 1,000 female population, ages 15-19	
												Mammography screening
2b	Social and Economic Environment (40%)	Education (10%)	High school graduation	Percent of ninth grade cohort that graduates in 4 years	Quality of life (50%)	Fair or fair health	Percent of adults reporting fair or poor health (age-adjusted)					
								Some college	Percent of adults aged 25-44 years with some post-secondary education	Poor physical health days	Average number of physically unhealthy days reported in past 30 days (age-adjusted)	
												Unemployment
Income (10%)	Children in poverty	Percent of children under age 18 in poverty	Family and social support (5%)	Inadequate social support	Percent of adults without social/emotional support	Low birthweight	Percent of live births with low birthweight (< 2500 grams)					
								Children in poverty	Percent of children under age 18 in poverty	Length of life (50%)	Premature death	Years of potential life lost before age 75 per 100,000 population (age-adjusted)

11

IV. Community Health Conversation: Your Perspectives / Suggestions !

Tomorrow:

What is occurring or might occur that would affect the “health of our community”?

Today:

- 1) What are the **Healthcare Strengths** of our community that contribute to health? (**BIG White Card**)
- 2) Are there healthcare services in your community/neighborhood that you feel **need to be improved and/or changed**? (**Small Color Card**)
- 3) *What other Ideas do you have to address Social determinants?* (**Small White Card - A**)

12

Data & Benchmarks Review

Community health assessments typically use both primary and secondary data to characterize the health of the community:

- **Primary data** are collected first-hand through surveys, listening sessions, interviews, and observations.
- **Secondary data** are collected by another entity or for another purpose.
- **Indicators** are secondary data that have been analyzed and can be used to compare rates or trends of priority community health outcomes and determinants.

Data and indicator analyses provide descriptive information on demographic and socioeconomic characteristics; they can be used to monitor progress and determine whether actions have the desired effect. They also characterize important parts of health status and health determinants, such as behavior, social and physical environments, and healthcare use.

Community health assessment indicators should be.

- Methodologically sound (valid, reliable, and collected over time)
- Feasible (available or collectable)
- Meaningful (relevant, actionable, and ideally, linked to evidence-based interventions)
- Important (linked to significant disease burden or disparity in the target community)

Jurisdictions should consider using data and indicators for the smallest geographic locations possible (e.g., county-, census block-, or zip code-level data), to enhance the identification of local assets and gaps.

Local reporting (County specific) sources of community-health level indicators:

CHNA Detail Sources
Quick Facts - Business
Centers for Medicare and Medicaid Services
CMS Hospital Compare
County Health Rankings
Quick Facts - Geography
Kansas Health Matters
Kansas Hospital Association (KHA)
Quick Facts - People
U.S. Department of Agriculture - Food Environment Atlas
U.S. Center for Disease Control and Prevention

Sources of community-health level indicators:

- [County Health Rankings and Roadmaps](#)
The annual Rankings measure vital health factors, including high school graduation rates, obesity, smoking, unemployment, access to healthy foods, the quality of air and water, income inequality, and teen births in nearly every county in America. They provide a snapshot of how health is influenced by where we live, learn, work and play.
- [Prevention Status Reports \(PSRs\)](#)
The PSRs highlight—for all 50 states and the District of Columbia—the status of public health policies and practices designed to prevent or reduce important public health problems.
- [Behavioral Risk Factor Surveillance System](#)
The world's largest, ongoing telephone health survey system, tracking health conditions and risk behaviors in the United States yearly since 1984. Data is collected monthly in all 50 states, the District of Columbia, Puerto Rico, the US Virgin Islands, and Guam.
- The [Selected Metropolitan/ Micropolitan Area Risk Trends](#) project was an outgrowth of BRFSS from the increasing number of respondents who made it possible to produce prevalence estimates for smaller statistical areas.

III. Community Health Status

[VVV Consultants LLC]

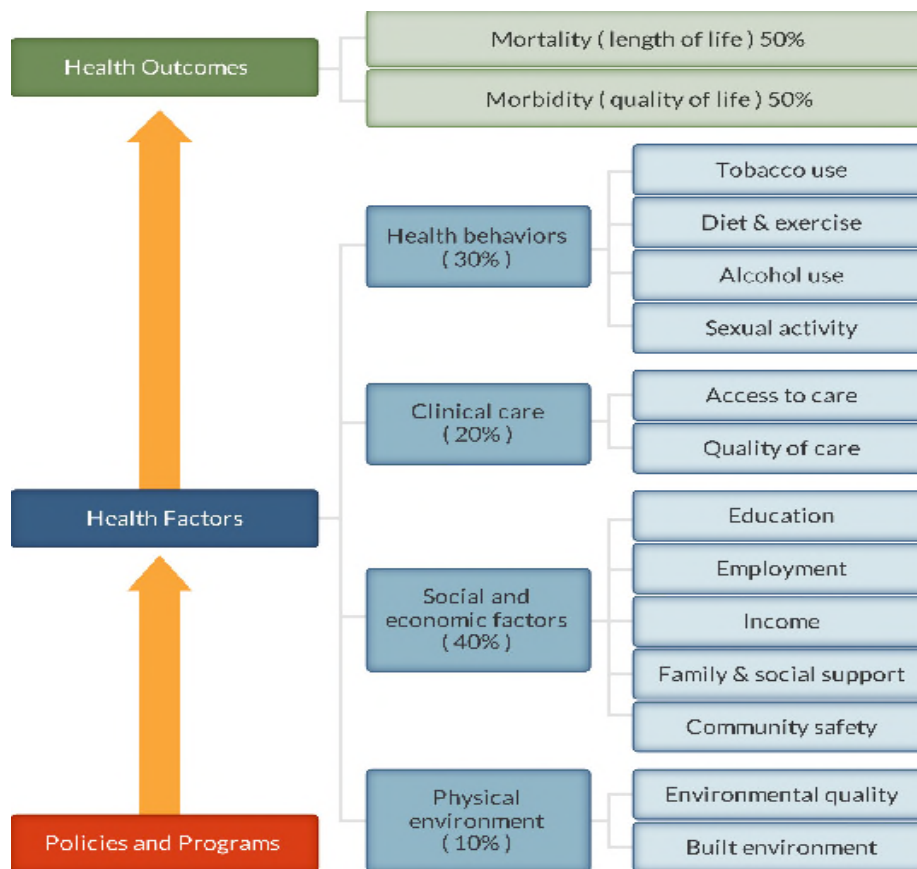

III. Community Health Status

a) Historical Health Statistics- Secondary Research

Health Status Profile

This section of the CHNA reviews published quantitative community health indicators from public health sources and results of community primary research. To produce this profile, VVV Consultants LLC staff analyzed & trended data from multiple sources. This analysis focuses on a set of published health indicators organized by ten areas of focus (10 TABS), results from the 2020 RWJ County Health Rankings and conversations from Town Hall participates. Each table published reflects a Trend column, with GREEN denoting growing/high performance indicators, YELLOW denoting minimal change/average performance indicators and RED denoting declining/low performance indicators.

Note: The Robert Wood Johnson Foundation collaborates with the University of Wisconsin Population Health Institute to release annual *County Health Rankings*. As seen below, RWJ’s model uses a number of health factors to rank each county.

County Health Rankings model ©2012 UWPHI

National Research – Year 2023 RWJ Health Rankings:

#	2023 KS Rankings - 105 Counties	Definitions	Barton Co (KS) 2023	Barton Co (KS) 2021	Trend	SWKS Rural Norm (14)
1	Health Outcomes		71	59	-	76
	Mortality	Length of Life	74	33	-	73
	Morbidity	Quality of Life	74	76	-	63
2	Health Factors		78	74		68
	Health Behaviors	Tobacco Use, Diet/Exercise, Alcohol Use, Sexual Activity	51	76	+	61

PSA Secondary Research:

When studying community health, it is important to document health data by topical areas for primary service area (PSA). Below is a summary of key findings organized by subject area.

Note: Each Tab has been trended to reflect County trends to NORM.

Health Indicators - Secondary Research
TAB 1. Demographic Profile
TAB 2. Economic Profile
TAB 3. Educational Profile
TAB 4. Maternal and Infant Health Profile
TAB 5. Hospital / Provider Profile
TAB 6. Behavioral / Mental Health Profile
TAB 7. High-Risk Indicators & Factors
TAB 8. Uninsured Profile
TAB 9. Mortality Profile
TAB 10. Preventative Quality Measures

Tab 1: Demographic Profile

Understanding population and household make-up is vital to start CHNA evaluation.

1	Population Health Indicators	Barton County 2024	Barton County 2021	Trend	State of KS	SWKS Rural Norm (N=14)	Source
a	Population estimates, 2020-2022	25,080	25,779		2,936,716	13,279	People Quick Facts
b	Persons under 5 years, percent, 2020-2022	6.1%	5.9%		6.0%	5.6%	People Quick Facts
c	Persons 65 years and over, percent, 2020-2022	21.0%	19.9%		17.2%	22.6%	People Quick Facts
d	Female persons, percent, 2020-2022	50.3%	50.5%		49.8%	49.5%	People Quick Facts
e	White alone, percent, 2020-2022	94.3%	94.9%		85.9%	92.7%	People Quick Facts
f	Black or African American alone, percent, 2020-2022	2.0%	1.9%		6.2%	1.6%	People Quick Facts
g	Hispanic or Latino, percent, 2020-2022	16.7%	15.3%	+	13.0%	9.4%	People Quick Facts
h	Language other than English spoken at home, percent of persons age 5 years+, 2017-2021	8.5%	10.6%	-	11.8%	5.2%	People Quick Facts
i	Living in same house 1 year ago, percent of persons age 1 year+, 2017-2021	83.8%	82.1%		84.4%	88.3%	People Quick Facts
j	Children in single-parent households, percent, 2017-2021	26.3%	39.7%		21.0%	19.7%	County Health Rankings
k	Veterans, 2017-2021	1,731	183		163,472	777	People Quick Facts

Tab 2: Economic Profile

Monetary resources will (at times) drive health “access” and self-care.

2	Economic - Health Indicators	Barton County 2024	Barton County 2021	Trend	State of KS	SWKS Rural Norm (N=14)	Source
a	Per capita income in past 12 months (in 2021 dollars), 2017-2021	\$31,516	\$28,590	+	\$38,108	\$31,172	People Quick Facts
b	Persons in poverty, percent, 2020-2022	13.9%	13.4%		12.00%	13.5%	People Quick Facts
c	Total Housing units, 2022	12,369	12,754		1,292,622	6,401	People Quick Facts
d	Persons per household, 2017-2021	2.5	1.9		2.5	2.4	People Quick Facts
e	Severe housing problems, percent, 2015-2019	10.4%	11.9%		12.5%	9.6%	County Health Rankings
f	Total employer establishments, 2021	901	NA		75,057	361	Business Quick Facts
g	Unemployment, percent, 2021	2.9%	3.3%		3.2%	2.8%	County Health Rankings
h	Food insecurity, percent, 2020	11.5%	12.5%		9.7%	11.4%	County Health Rankings
i	Limited access to healthy foods, percent, 2019	12.5%	9.2%	-	8.4%	9.6%	County Health Rankings
j	Long commute - driving alone, percent, 2017-2021	9.7%	11.2%	+	21.7%	25.1%	County Health Rankings
k	Community Spending on Food, 2023 **	13.4%	NA		12.7%	13.5%	Kansas Health Matters
l	Community Spending on Transportation, 2023 **	18.9%	NA		18.1%	20.2%	Kansas Health Matters
m	Households With Internet Sub (2017-2021) **	82.2%	NA		86.7%	79.4%	Kansas Health Matters
n	Student Loan Spending-to-Income, 2023 **	5.4%	NA		4.6%	5.4%	Kansas Health Matters

**New Social Determinant Data Resources

Tab 3: Educational Profile

Currently, school districts are providing on-site primary health screenings and basic care.

3	Education - Health Indicators	Barton County 2024	Barton County 2021	Trend	State of KS	SWKS Rural Norm (N=14)	Source
a	Children eligible for free or reduced price lunch, percent, 2020-2021	61.9%	64.1%		48.0%	51.0%	County Health Rankings
b	High school graduate or higher, percent of persons age 25 years+, 2017-2021	89.6%	95.8%	-	91.0%	90.9%	People Quick Facts
c	Bachelor's degree or higher, percent of persons age 25 years+, 2017-2021	21.7%	24.1%		34.7%	22.1%	People Quick Facts

#	Indicators	Ellinwood District 2024	Ellinwood District 2014
1	Total # Public School Nurses		1
2	School Nurse is part of the IEP team Yes/No		No
3	School Wellness Plan (Active)		No
4	VISION: # Screened / Referred to Prof / Seen by Professional		149 / 10 / 3
5	HEARING: # Screened / Referred to Prof / Seen by Professional		154 / 4 / 0
6	ORAL HEALTH: # Screened / Referred to Prof / Seen by Professional		NA
7	SCOLIOSIS: # Screened / Referred to Prof / Seen by Professional		NA
8	# of Students served with no identified chronic health concerns		376
9	School has a suicide prevention program		No
10	Compliance on required vaccinations (%)		100%

Tab 4: Maternal / Infant Profile

Tracking maternal / infant care patterns are vital in understanding the foundation of family health.

4	Maternal/Infant - Health Indicators (Access/Quality)	Barton County 2024	Barton County 2021	Trend	State of KS	SWKS Rural Norm (N=14)	Source
a	Percent of Births Where Prenatal Care began in First Trimester, 2019-2021	82.1%	77.2%	+	81.3%	80.1%	Kansas Health Matters
b	Percentage of Premature Births, 2019-2021	11.7%	10.2%	-	9.1%	10.2%	Kansas Health Matters
c	Percent of Infants up to 24 months that received full Immunizations, 2017-2018	79.3%	77.2%		69.2%	72.0%	Kansas Health Matters
d	Percent of Births with Low Birth Weight, 2019-2021	6.9%	6.3%		7.3%	7.3%	Kansas Health Matters
e	Percent of all Births Occurring to Teens (15-19), 2019-2021	7.1%	7.8%		5.5%	5.6%	Kansas Health Matters
f	Percent of births Where Mother Smoked During Pregnancy, 2019-2021	12.9%	16.9%		10.0%	11.6%	Kansas Health Matters
g	Child Care Centers per 1,000 Children, 2010-2022	10.3	NA		7.0	6.5	County Health Rankings

Tracking maternal / infant care patterns are vital in understanding the foundation of family health.

#	Vital Statistics (Rate per 1,000)	Barton County, KS	Kansas	SWKS RURAL NORM (14)
a	Total Live Births, 2017	10.7	12.5	10.8
b	Total Live Births, 2018	12.3	12.5	11.0
c	Total Live Births, 2019	11.9	12.1	10.9
d	Total Live Births, 2020	12.7	11.8	10.5
e	Total Live Births, 2021	12.5	11.8	10.7
f	Total Live Births, 2017-2021 - 5 year Rate (%)	12.0	12.1	10.8

Tab 5: Hospitalization and Provider Profile

Understanding provider access and disease patterns are fundamental in healthcare delivery. Listed below are several vital county statistics.

5	Hospital/Provider - Health Indicators (Access/Quality)	Barton County 2024	Barton County 2021	Trend	State of KS	SWKS Rural Norm (N=14)	Source
a	Primary Care Physicians (Pop Coverage per MDs & DOs) - No extenders Included, 2020	1833:1	1891:1		1260:1	1918:1	County Health Rankings
b	Preventable hospital rate per 100,000, 2020 (lower the better)	2,712	4,460	+	2708	2,640	County Health Rankings
c	Patients Who Gave Their Hospital a Rating of 9 or 10 on a Scale from 0 (Lowest) to 10 (Highest)	NA	NA		78%	75.6%	CMS Hospital Compare, Latest Release
d	Patients Who Reported Yes, They Would Definitely Recommend the Hospital	NA	NA		78%	73.2%	CMS Hospital Compare, Latest Release
e	Average (Median) time patients spent in the emergency department, before leaving from the visit (mins)	106	NA		112	111	CMS Hospital Compare, Latest Release

Tab 6: Behavioral / Mental Health Profile

Behavioral healthcare provides another important indicator of community health status.

6	Mental - Health Indicators	Barton County 2024	Barton County 2021	Trend	State of KS	SWKS Rural Norm (N=14)	Source
a	Adults Ever Diagnosed with Depression, 2021 **	20.3%	NA		NA	20.1%	Kansas Health Matters
b	Age-adjusted Suicide Mortality Rate per 100,000 population, 2018-2020	23.3	23.3		18.7	22.5	Kansas Health Matters
c	Mental Behavioral Hospital Admission Rates per 100,000, 2018-2020	31.1	34.8		75.1	59.2	Kansas Health Matters
d	Average Number of mentally unhealthy days, 2020	4.3	3.8		4.4	4.5	County Health Rankings

**New Social Determinant Data Resources

CDC - 2022 U.S. County Opioid Dispensing Rates			
State	County	FIPS	Opioid Dispensing Rate per 100

Ellinwood Hospital and Clinic - Town Hall Notes

Date: 3/22/2024 – 11a.m. to 12:30p.m. @ Ellinwood HS Library

Attendance: N= 25

INTRO: Following is a recap of the community conversation during CHNA 2024 Town Hall

- The community stated that people don't report Mental Health because it's a stigma, or they don't know how to report.
- Preventative Health is a problem because of insurance/lack thereof, or they don't know where to go.
- Not a large Hispanic community in the community.
- Other languages spoken in the Community: Spanish, Bulgarian
- The community agrees that single parent households are a significant percentage.
- EDC takes VA insurance, however for further care: Great Bend (once a month outreach), Hays, Wichita.
- The schools had a backpack (food) program but phased it out because it wasn't being used. Also, no food will be provided for students during the summer.
- Community members are commuting to Great Bend for work.
- Affordable internet service is a problem.
- Labor and Delivery patients are going to: Lyons, Great Bend, Hays, Salina, Hutchinson
- Vaping has grown in the community. (Nicotine and other narcotics)
- Kids and Teens Depression rate has grown since Covid.
- Drugs in the Community: Opioids, Meth, Marijuana, Fentanyl is an issue because it gets mixed in other drugs.
- Substance Abuse should be treated separately because prevention is different.
- STDs are a problem in the community.
- Chronic Diseases: Diabetes, Blood Pressure, and heart disease
- Exercise Opportunities: Rec Center, Track, Seasonal Pool, people walk around town because it is small.
- Safe and Affordable housing is a problem in the community.
- Visiting Specialists are needed at Ellinwood, so patients don't have to go to Great Bend: ENT, URO, ENDO

What is coming/occurring that will affect health of community:

- Ellinwood's new Hospital is opening August 2024. Will be a positive impact on the community.
- Business Development: new restaurant and new housing

Strengths in the community:

- | | |
|---|-----------------------------------|
| ➤ Pharmacy | ➤ New Hospital |
| ➤ EMS | ➤ The Senior Center |
| ➤ Access to Primary Care Providers in a timely manner | ➤ "Little Big Town" |
| ➤ New Housing Development | ➤ Public and Private Schools |
| ➤ Community Involvement and Support | ➤ Local Grocery store |
| ➤ City Services | ➤ Big Business: Ellinwood Packing |
| | ➤ Foodbank |

Areas to improve or change to improve health:

- Access to Specialists ((URO, ENDO, ENT)
- Childcare (Safe & Affordable)
- Chronic Disease Management
- Early Childcare
- Healthy Foods (Affordable/Accessible)
- Mental Health (Diagnosis, Placement, Aftercare, Access to Providers)
- Preventative Health
- Senior Care
- Social Emotional Learning
- Substance Abuse (Drug & Alcohol)
- Suicide Prevention
- Transportation

EMAIL Request to Ellinwood District Hospital CHNA Stakeholders

From: Kile Magner, CEO

Date: 1/5/24

To: Community Leaders, Providers, Hospital Board and Staff

Subject: CHNA Round #5-2024 Community Online Feedback Survey – Barton County, KS

Over the next three months, Ellinwood District Hospital – Ellinwood, KS will be working with other area providers to update the 2024 Community Health Needs Assessment (CHNA). The goal of this assessment update is to understand progress in addressing community health needs cited in 2015, 2018, and 2021 CHNA reports while collecting up-to-date community health perceptions and ideas.

Your feedback and suggestions regarding current community health delivery are extremely important to collect to complete this comprehensive report. To accomplish this work, a short online survey has been developed for community members to take. Please visit our hospital website, Facebook page, or utilize the link below to complete this survey. All community residents and business leaders are encouraged to complete the 2024 online CHNA survey by **February 23rd, 2024**. All responses are confidential.

LINK: https://www.surveymonkey.com/r/CHNA2024_EllinwoodCoKS_OnlineSurvey

Please Hold the Date for a virtual community Town Hall is scheduled for **Friday, March 22nd, 2024 for lunch from 11:30am-1pm**. More details regarding the virtual community Town Hall will be shared soon so stay on the lookout!

If you have any questions about CHNA activities, please call (620) 564-2548.

Thank you for your time and participation.

Media Release: 1-5-24

Ellinwood District Hospital Seeks Community Input on Local Health Needs

Over the next few months, **Ellinwood District Hospital** will be working together along with other area community leaders to update the Ellinwood County, KS 2024 Community Health Needs Assessment (CHNA). Today we are requesting community residents' input regarding current healthcare delivery and unmet resident needs.

The goal of this assessment update is to understand progress from past community health needs assessments conducted in 2021, 2018 and 2015, while collecting up-to-date community health perceptions and ideas. VVV Consultants LLC, an independent research firm from Olathe, KS has been retained again to conduct this countywide research.

A brief community survey has been developed to accomplish this work. The CHNA survey link can be accessed by visiting our hospital website or by utilizing the QR code below for quick access.

All community residents and business leaders are encouraged to complete this online survey by **February 23rd, 2024**. In addition, a CHNA Town Hall meeting to discuss the survey findings and identify unmet needs will be held on **Friday, March 22nd, 2024 for lunch from 11:30am-1pm**. More info to come soon regarding the Town Hall.

Thank you in advance for your time and support!

If you have any questions regarding CHNA activities, please call (620) 564-2548

EMAIL #2 Request Message

From: Kile Magner

Date: 03/01/24

To: Area Community Leaders, Providers and Hospital Board & Staff

Subject: Ellinwood Hospital - Community Health Needs Assessment Town Hall lunch– March 22, 2024

Ellinwood Hospital will host a Town Hall Community Health Needs Assessment (CHNA) lunch on Friday, March 22nd. The purpose of this meeting will be to review collected community health indicators and gather community feedback opinions on key unmet health needs for Ellinwood County, KS. **Note: This event will be held on Friday, March 22nd, from 11:00 a.m.- 12:30 p.m. at the Ellinwood School Community Library (210 N Schiller Ave, Ellinwood, KS 67526) with a check-in time starting at 11:15 a.m.**

We hope you find the time to attend this important event. All business leaders and residents are encouraged to join us. To adequately prepare for this event, it is imperative all RSVP who plan to attend town hall.

LINK: https://www.surveymonkey.com/r/EllinwoodCHNA_RSVP

Thanks in advance for your time and support!

If you have any questions regarding CHNA activities, please call Kristy Rupe (620) 564-2548.

Ellinwood Hospital and Clinic to Host a Community Health Needs Assessment Town Hall on Friday, March 22, 2024.

Media Release: 03/01/2024

Contact: Kristy Rupe (620) 564-2548

To gauge the overall community health needs of residents, **Ellinwood Hospital and Clinic**, in conjunction with other area providers, invites the public to participate in a Community Health Needs Assessment (CHNA) Town Hall roundtable on **Friday, March 22nd for lunch from 11:00am-12:30pm** located at the Ellinwood School Community Library (210 N Schiller Ave, Ellinwood, KS 67526) **with a check-in time starting at 10:45am.**

This event is being held to identify and prioritize the community health needs. Findings from this community discussion will also serve to fulfill both federal and state mandates.

To adequately prepare for this event, it is vital everyone planning to attend this event RSVPs. Please visit our hospital website or social media sites to obtain the link to complete your RSVP OR please utilize the QR code below.

We hope that you will be able to join us for this discussion on March 22nd. Thanks in advance for your time and support!

If you have any questions about CHNA activities, please call (620) 564- 2548.

CHNA 2024 Community Feedback: Ellinwood, KS PSA (N=179)

ID	Zip	Rating	c1	c2	c3	Q10. Being this a strong topic of interest, do you have any thoughts, ideas, and/or specific suggestions (food, housing, transportation, support, etc.) to address these 5 social determinants to improve our community health? (Please Be Specific)
1046	67530	Good	AWARE	MH		Awareness of mental health services.
1079	67526	Good	CC	DOCS	ACC	proper child care could really benefit the community and help build the community. more providers will bring more patients to the new hospital
1169	67526	Poor	CC	FINA	WAG	Childcare is huge. If we don't have childcare, we wont have staff to work for our hospital. Affordability, we need better paying jobs to afford regular living, not including how high our taxes and utilities are in Ellinwood.
1013	67526	Average	CC	HRS	SPRT	Need more childcare service options Need 24hr/7 days workout facility, some people work different shifts. Need more family support options for community.
1015	67554	Good	CLIN	LAB	FINA	Cheaper clinic days, lab fairs
1072	67526	Very Good	CLIN	TRAN	RESO	Proposal: Establish Satellite Offices in Ellinwood Expanding Sunflower Diversified Services and the Center for Counseling and Consultation to Ellinwood through satellite offices would significantly benefit Barton County residents. This initiative would increase accessibility to crucial services for those facing transportation challenges in reaching Great Bend. Additionally, consider designating a city office staff member to champion Ellinwood's positive attributes, fostering a more vibrant community. By working together, we can ensure all residents in Barton County have access to the resources they need and deserve.
1025	67526	Very Good	DOH	RESO	ACC	maybe public health fairs to encourage more people to access the resources
1082	67526	Good	EDU	HOUS	MH	People need to be reeducated to go back to work. Affordable housing that is not a shit hole. More community support and programs for mental health and addiction. Less nepotism in our local government
1134	67530	Average	EDU	OWN	SPRT	Lack of education from childhood to early adult is severely lacking. Individuals are too far gone and created unhealthy habits and lifestyles. We need to educate individuals before these habits start to give them a better understanding of how poor health habits can inhibit their success in work, health and life.
1054	67526	Very Good	EDU	PREV	SPRT	Maybe an educational podcast or video classes for healthy living and preventative lifestyle. By local Healthcare professionals. Just for our local area.
1137	67526	Average	EDU	REC	FIT	1. quarterly education that is social media driven and in person driven 2. Improved recreational center to provide increased access to exercise related activities
1146	67526	Average	EDU	SH	SPRT	Education system is behind from other schools in a lot of ways here. Community support is rather hit and miss, sometimes its too much when not asked for other times its lacking.
1010	67526	Good	FAC	PRIM	EDU	I hope the new hospital/clinic building will draw many more specialists to our area. I would love to see primary care providers focused more on wellness screening/education than prescribing medications for every condition they diagnose.
1048	67526	Very Good	FF	NH	HOUS	Even though this is a small community, getting in touch with those who fall through the crack, esp. the elderly who make too much for state assistance and not enough to afford the high cost of rent, food, meds, etc. is important. We have many elderly who live in shabby housing without the ability to keep hygiene and a clean environment well. If we could form a support group, church group, etc that is willing to connect with them and work on their homes to make it safe for them to stay in, they would also make connections on other ways they need help.
1065		Very Good	FIT	HOUS	CC	Exercise place Housing, child care, place for elderly
1177	67526	Very Good	FIT	REC		Access to a larger area to exercise. A public gymnasium would be great and a larger fitness room to accommodate the community needs.
1119	67526	Average	FIT	SPEC	HOUS	Offer more health focused/exercise opportunities in the community, bring in more specialists, push for AFFORDABLE housing
1171	67526	Good	HOUS	ACC		More houses for families that want to buy a home need to be built.
1108	67526	Very Good	HOUS	CC	NH	More housing is needed along with childcare services. People will not move to Ellinwood/Barton county if we do not have places to build houses or have child care readily available. Another huge need is nursing homes. Elderly are moving away to larger cities because they need those services and there is limited available in this area.
1102	67526	Very Good	HOUS	CC	NUTR	We need AFFORDABLE housing and child care. Without these this community will suffer. Perhaps there might need to be a way of "capping" the amounts of rents imposed or charged to hardworking families that move here. If one whole paycheck goes to just rent how do you have the money to buy groceries pay your car payment access healthcare or put back into the community in any way?!
1153	67526	Average	HOUS	FINA	ECON	No real ideas. Our rental houses are way too expensive for most people and the slumlords are not keeping them up and there's not a lot of job opportunities in our community or in our county.
1161	67526	Very Good	HOUS	FINA	REC	We need more affordable rental houses. Also a walking trail or outdoor exercise area for adults. Our sidewalks are in dismal shape and dangerous to walk on in residential areas. Major lack of food service
1033	67526	Good	HOUS	FINA		Affordable Housing and the ability to add additional housing developments that are affordable
1089	67526	Average	HOUS	FINA		The everyday necessities would help. Affordable housing/rentals. A laundry mat. Affordable healthcare. It's hard to "shop local" when there isn't anything to buy.
1056	67526	Good	HOUS	TRAN	CC	Need more affordable housing. Transportation is an issue if the need can't be met in Ellinwood. Most households are on assistance due to only 1 parent working or low income. Childcare is expensive.
1138	67525	Good	HOUS			Need more housing opportunities
1068	67526	Good	INSU	DRUG	FINA	My insurance recently forced me onto Medicare Plan D when I liked the drug program I continue to pay for with the standard insurance i have continued to pay for. I feel cheated.

CHNA 2024 Community Feedback: Ellinwood, KS PSA (N=179)

ID	Zip	Rating	c1	c2	c3	Q10. Being this a strong topic of interest, do you have any thoughts, ideas, and/or specific suggestions (food, housing, transportation, support, etc.) to address these 5 social determinants to improve our community health? (Please Be Specific)
1145	67526	Good	INSU	MH	HOUS	Better, cheaper insurance. The health care exchange is a joke. More mental health and addiction facilities people can afford. Affordable housing. People can't afford medications and food.
1049		Good	NH	CC		Senior living facility, expanded child care services,
1140	67530	Very Good	NH	TRAN		The aging in need of transportation
1005	67526	Very Good	NUTR	ACC	HOUS	Soup kitchen. Instructive events. NEED new industry in city. Increased affordable housing options.
1035	67530	Very Good	NUTR	ACC		The town needs more options for food. There needs to be more restaurants available.
1143	67526	Good	PHY	FIT	MRKT	Maybe if the PT dept could do come physical fitness guides and goals for individual patient to help overweight individuals find a starting place in managing their physical exercise. Better Marketing about what services are available in the community. More Farmer Market days. It's easier to eat healthy when you can eat from your farmers market.
1076	67526	Good	PREV	FINA		PREVENTATIVE is overlooked because there is so much more money in TREATING
1036	67526	Good	REC	ACC		A BIKING TRAIL BETWEEN GREAT BEND AND ELLINWOOD!
1008	67526	Good	REC	NUTR	ACC	Let's have a outdoor walk path, and more food for the needy.
1113	67526	Good	REC	SPRT	NUTR	Safe walking routes. Indoor walking routes. Increase support for local food bank.
1124	67530	Good	RESO	SERV		The resources are available those in need must seek out the services they need, information is often provided publicly at doctors offices, libraries, social media platforms. For those in need the services are available in our county.
1158	67526	Average	SPRT	PRIM	DOH	Focus on the whole family... Adults and children for primary care... Community health department is needed for uninsured. Many do not have transportation to leave town for care.
1088	67526	Very Good	TRAN			need free transportation for those in need.
1007	67526	Good	WAG	HOUS	FINA	Wages are to low and housing costs are grossly overpriced. People can not afford basic needs. Shelter, transportation, food, medical care.

CHNA 2024 Community Feedback: Ellinwood, KS PSA (N=179)						
ID	Zip	Rating	c1	c2	c3	Q8. In your opinion, what are the root causes of "poor health" in our community? Other (Be Specific)
1153	67526	Average	DOCS	ALT		Our providers are unaccepting to a more natural and healthy way of medical care
1132	67526	Very Good	DRUG			drug/ substance abuse
1171	67526	Good	DRUG			Drugs
1076	67526	Good	EDU	NUTR	OWN	Lack of education of alternatives..... Knowledge of better diet choices etc....
1072	67526	Very Good	EDU	POV		lack of education and poverty
1103		Very Good	FINA	NUTR		Cost of healthy food
1177	67526	Very Good	FIT	ACC		We need a larger gym in Ellinwood. It is so crowded during peak times, it makes it difficult to go.
1169	67526	Poor	FUND	FINA		Lack of funds available.
1100	67526	Average	OBES	RESO	FINA	Our society pushes obesity and to embrace it, therefore, why should someone that has those options to better themselves who may have the resources and money, but may not use them because society tells them not too.
1158	67526	Average	PEDS	PRIM		No pediatric doctors, or primary that accepts children.
1084	67526	Good	REC			We need a walking place besides streets and the track!

CHNA 2024 Community Feedback: Ellinwood, KS PSA (N=179)

ID	Zip	Rating	c1	c2	c3	Q13. What "new" community health programs should be created to meet current community health needs?
1076	67526	Good	ALT	PHAR		Alternatives to OTC drugs.... And prescription meds....
1119	67526	Average	CARD	DIAB	NUTR	Offer health programs to target heart health, diabetes, weight loss, and nutrition.
1088	67526	Very Good	CC	ACC		day care is a must so that families can get out and work, access to more for family
1123		Good	CC	HOUS	NH	For child care, elderly housing.
1053	67526	Good	CC	OBG		Childcare and labor & delivery!
1094	67526	Good	CC			More daycare
1079	67526	Good	CC			New daycare/ preschool
1035	67530	Very Good	CLIN	EMER		An urgent care clinic would be nice so the ER would be used less for non emergencies.
1134	67530	Average	CLIN	INSU	CHRON	A free clinic that takes those without insurance, but ALSO helps them get insurance or apply for medicare/medicaid. Has openings for chronic disease care, preventative care, and urgent care type appointments. Offers dental services AND EYE services. Offers mental health with RELIABLE resources for inpatient referrals.
1130	67526	Very Good	DIAB	SMOK		Diabetes Smoking
1072	67526	Very Good	DOH	RESO	EDU	Hospital could host regular family fairs showcasing city, county, and state resources for education, mental health, and other family support services, fostering community connections.
1106	67526	Very Good	EDU	RESO		Cpr
1102	67526	Very Good	ENDO	RHE	ENT	Endocrinology, Rheumatology, ENT, Dentistry, etc..
1159	67526	Average	FEM	OBG		We need more women's health physicians. OBGYN, labor and delivery, postpartum care.
1015	67554	Good	FIT	CLIN	FINA	Exercise programs, bike riding in the community, Cheaper clinic days, lab fair
1143	67526	Good	FIT	MH	SURG	Fitness Mental health, NOT associated with the Center, it's a joke! Out patient surgery-colonoscopies, and other smaller procedures. What to expect as we age and how to manage it as we grow older. I'm 44 and can tell time is catching up to me. What can I expect going forward, what can I do to slow down or improve my longevity or active lifestyle?
1177	67526	Very Good	FIT	NUTR		Exercise Nutrition
1052	67526	Very Good	FIT	TRAIN	EDU	Free exercise classes or coaching/training.
1148	67526	Poor	HRS	EMER		Improved health promotion and community involved, improved hours to access healthcare to avoid ER visits.
1145	67526	Good	INSU	FINA	MH	Affordable insurance and housing. Mental health and drug facilities. Affordable child care.
1105	67526	Very Good	MH	ACC	EDU	Access to mental health services that include thorough evaluation and follow up care.
1109	67526	Very Good	MH	AWARE		Mental health awareness and help for people to find and receive treatment
1046	67530	Good	MH	CANC	CC	Mental health awareness. Cancer support groups. Child care resources.
1097	67526	Very Good	MH	DOCS	QUAL	Gut the current area mental health provider, terrible poor bottom of barrel providers there
1007	67526	Good	MH	DRUG	CC	Mental health, drug and alcohol abuse and childcare.
1082	67526	Good	MH	DRUG	TRAIN	Mental health , drug and alcohol and sexual abuse training and therapy services.
1118	67526	Average	MH	NH	FIT	Mental wellness Senior health and exercise programs
1138	67525	Good	MH			Mental health
1153	67526	Average	NH	MH	SH	We have a lot of elderly people in our area and there is a huge urgency for mental health, especially for kids in grade school, junior high and high school. Our school officials from superintendent on down are not keeping our children safe from bullying and cyber stuff.
1054	67526	Very Good	NH	OBG	EMS	Senior living care. Labor and delivery. Increase EMS and emergency room capabilities.
1128	67526	Average	NH	THER		The NEW program for Seniors is great and so much fun. I know the community can't wait to see what is next from Therapy.
1048	67526	Very Good	NUTR	ACC		Healthy eating on a budget, how to grow a garden, then can so you can have food in the off season.
1013	67526	Average	OBG	PEDS	DENT	OB outreach clinic, pediatric doctor, dentist, better wellness center/gym and gym hours.
1149	67526	Good	OBG	SERV		I think OBGYN services are needed.
1056	67526	Good	OPHT	DENT		Local eye or dentist
1171	67526	Good	PEDS			Pediatrician
1169	67526	Poor	QUAL			everything possible. Ellinwood NEEDS growth.
1089	67526	Average	REC	NH		There are so many things the Rec could do. The recent class for aging mobility, do that monthly. Think outside the realm of sports.
1113	67526	Good	REC			Indoor walking facility.
1008	67526	Good	REC			Walking groups
1084	67526	Good	REC			Walking trails
1005	67526	Very Good	RESO			Private development.
1049		Good	SPEC	ACC	SERV	Specialists rotating to Ellinwood on a monthly basis so you wouldn't need to drive somewhere else.
1030	67526	Good	SPRT	RESO		Total family activities
1137	67526	Average	SPRT	SH		Parenting classes with possible outreach. School is now "behavior management".
1158	67526	Average	VACC	PEDS	TRAV	Vaccination and checkups for children. Dental service offered monthly for those that can't travel. Many children in need for prevention

Ellinwood Hospital & Clinic (Ellinwood, KS) area providers have begun the process of updating a comprehensive community-wide 2024 Community Health Needs Assessment (CHNA) to identify unmet health needs. To gather current area feedback, a short online survey has been created to evaluate current community health needs and delivery. Note: Please consider your answers to the survey questions as it relates to ALL healthcare services in our community, including but not limited to our local hospital.

While your participation is voluntary and confidential, all community input is valued. Thank you for your immediate attention! CHNA 2024 online feedback deadline is set for March 1, 2024.

1. In your opinion, how would you rate the "Overall Quality" of healthcare delivery in our community?

- Very Good Good Average Poor Very Poor

2. How would our community area residents rate each of the following health services?

	Very Good	Good	Fair	Poor	Very Poor
Ambulance Services	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Child Care	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Chiropractors	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Dentists	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Emergency Room	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Eye Doctor/Optomtrist	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Family Planning Services	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Home Health	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Hospice/Palliative	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Telehealth	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

3. How would our community area residents rate each of the following health services?

(Continued)

	Very Good	Good	Fair	Poor	Very Poor
Inpatient Hospital Services	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Mental Health Services	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Nursing Home/Senior Living	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Outpatient Hospital Services	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Pharmacy	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Primary Care	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Public Health	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
School Health	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Visiting Specialists	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

4. In your own words, what is the general perception of healthcare delivery for our community (i.e. hospitals, doctors, public health, etc.)? Be Specific.

5. In your opinion, are there healthcare services in our community/your neighborhood that you feel need to be improved, worked on and/or changed? (Please be specific)

6. From our past CHNA, a number of health needs were identified as priorities. Are any of these an ongoing problem for our community? Please select top three.

- | | |
|--|---|
| <input type="checkbox"/> Mental Health Services (Provider, Treatment, Aftercare) | <input type="checkbox"/> Affordable Housing |
| <input type="checkbox"/> Drug / Substance Abuse | <input type="checkbox"/> Child Care (Access / Cost) |
| <input type="checkbox"/> Improved Hospital Facility | <input type="checkbox"/> Economic Development |
| <input type="checkbox"/> Affordable Healthcare | <input type="checkbox"/> Obesity |
| <input type="checkbox"/> Access to Healthcare Providers | <input type="checkbox"/> Chronic Disease Management |
| <input type="checkbox"/> "Aging in Place" Facilities | <input type="checkbox"/> Senior Care |
| <input type="checkbox"/> Awareness of Healthcare Services | <input type="checkbox"/> Cancer Care |
| <input type="checkbox"/> Access to More Specialists | |

7. Which past CHNA needs are NOW the "most pressing" for improvement? Please select top three.

- | | |
|--|---|
| <input type="checkbox"/> Mental Health Services (Provider, Treatment, Aftercare) | <input type="checkbox"/> Affordable Housing |
| <input type="checkbox"/> Drug / Substance Abuse | <input type="checkbox"/> Child Care (Access / Cost) |
| <input type="checkbox"/> Improved Hospital Facility | <input type="checkbox"/> Economic Development |
| <input type="checkbox"/> Affordable Healthcare | <input type="checkbox"/> Obesity |
| <input type="checkbox"/> Access to Healthcare Providers | <input type="checkbox"/> Chronic Disease Management |
| <input type="checkbox"/> "Aging in Place" Facilities | <input type="checkbox"/> Senior Care |
| <input type="checkbox"/> Awareness of Healthcare Services | <input type="checkbox"/> Cancer Care |
| <input type="checkbox"/> Access to More Specialists | |

8. In your opinion, what are the root causes of "poor health" in our community? Please select top three.

- | | |
|--|--|
| <input type="checkbox"/> Chronic Disease Management | <input type="checkbox"/> Limited Access to Mental Health |
| <input type="checkbox"/> Lack of Health & Wellness | <input type="checkbox"/> Family Assistance Programs |
| <input type="checkbox"/> Lack of Nutrition / Access to Healthy Foods | <input type="checkbox"/> Lack of Health Insurance |
| <input type="checkbox"/> Lack of Exercise | <input type="checkbox"/> Neglect |
| <input type="checkbox"/> Limited Access to Primary Care | <input type="checkbox"/> Lack of Transportation |
| <input type="checkbox"/> Limited Access to Specialty Care | |

Other (Be Specific).

9. Community Health Readiness is vital. How would you rate each of the following?

	Very Good	Good	Fair	Poor	Very Poor
Behavioral/Mental Health	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Emergency Preparedness	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Food and Nutrition Services/Education	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Health Wellness Screenings/Education	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Prenatal/Child Health Programs	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Substance Use/Prevention	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Suicide Prevention	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Violence/Abuse Prevention	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Women's Wellness Programs	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Exercise Facilities / Walking Trails etc.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

10. Social Determinants are impacting healthcare delivery. These determinants include 1) Education Access and Quality, 2) Economic Stability, 3) Social / Community support, 4) Neighborhood / Environment, and 5) Access to Quality Health Services. Being this a strong topic of interest, do you have any thoughts, ideas, and/or specific suggestions (food, housing, transportation, support, etc.) to address these 5 social determinants to improve our community health? (Please Be Specific)

11. Over the past 2 years, did you or someone in your household receive healthcare services outside of your county?

- Yes No

If yes, please specify the services received

12. Access to care is vital. Are there enough providers/staff available at the right times to care for you and your community?

- Yes No

If NO, please specify what is needed where. Be specific.

13. What "new" community health programs should be created to meet current community health needs?

14. Are there any other health needs (listed below) that need to be discussed further at our upcoming CHNA Town Hall meeting? Please select all that apply.

- | | | |
|---|--|--|
| <input type="checkbox"/> Abuse/Violence | <input type="checkbox"/> Health Literacy | <input type="checkbox"/> Poverty |
| <input type="checkbox"/> Access to Health Education | <input type="checkbox"/> Heart Disease | <input type="checkbox"/> Preventative Health/Wellness |
| <input type="checkbox"/> Alcohol | <input type="checkbox"/> Housing | <input type="checkbox"/> Sexually Transmitted Diseases |
| <input type="checkbox"/> Alternative Medicine | <input type="checkbox"/> Lack of Providers/Qualified Staff | <input type="checkbox"/> Suicide |
| <input type="checkbox"/> Behavioral/Mental Health | <input type="checkbox"/> Lead Exposure | <input type="checkbox"/> Teen Pregnancy |
| <input type="checkbox"/> Breastfeeding Friendly Workplace | <input type="checkbox"/> Neglect | <input type="checkbox"/> Telehealth |
| <input type="checkbox"/> Cancer | <input type="checkbox"/> Nutrition | <input type="checkbox"/> Tobacco Use |
| <input type="checkbox"/> Care Coordination | <input type="checkbox"/> Obesity | <input type="checkbox"/> Transportation |
| <input type="checkbox"/> Diabetes | <input type="checkbox"/> Occupational Medicine | <input type="checkbox"/> Vaccinations |
| <input type="checkbox"/> Drugs/Substance Abuse | <input type="checkbox"/> Ozone (Air) | <input type="checkbox"/> Water Quality |
| <input type="checkbox"/> Family Planning | <input type="checkbox"/> Physical Exercise | |

Other (Please specify).

15. For reporting purposes, are you involved in or are you a....? Please select all that apply.

- | | | |
|--|--|--|
| <input type="checkbox"/> Business/Merchant | <input type="checkbox"/> EMS/Emergency | <input type="checkbox"/> Mental Health |
| <input type="checkbox"/> Community Board Member | <input type="checkbox"/> Farmer/Rancher | <input type="checkbox"/> Other Health Professional |
| <input type="checkbox"/> Case Manager/Discharge Planner | <input type="checkbox"/> Hospital | <input type="checkbox"/> Parent/Caregiver |
| <input type="checkbox"/> Clergy | <input type="checkbox"/> Health Department | <input type="checkbox"/> Pharmacy/Clinic |
| <input type="checkbox"/> College/University | <input type="checkbox"/> Housing/Builder | <input type="checkbox"/> Media (Paper/TV/Radio) |
| <input type="checkbox"/> Consumer Advocate | <input type="checkbox"/> Insurance | <input type="checkbox"/> Senior Care |
| <input type="checkbox"/> Dentist/Eye Doctor/Chiropractor | <input type="checkbox"/> Labor | <input type="checkbox"/> Teacher/School Admin |
| <input type="checkbox"/> Elected Official - City/County | <input type="checkbox"/> Law Enforcement | <input type="checkbox"/> Veteran |

Other (Please specify).

e.) County Health Rankings & Roadmap Detail

[VVV Consultants LLC]

Barton County

KANSAS HEALTH INSTITUTE

Informing Policy. Improving Health.

Health Outcomes

Health Factors

khi.org
countyhealthrankings.org

Health Outcomes and Health Factors summaries replace the numerical ranking provided in previous years.

Each Kansas county with sufficient data is represented by a dot, placed on a continuum from least healthy to healthiest in the nation.

The color of each dot represents data-informed groupings of counties nationwide with similar Health Outcomes or Health Factors on the continuum.

Population: 25,080

	2020	2021	2022	2023	2024	Kansas 2024	U.S. 2024
Health Outcomes							
Length of life							
Premature death (years of potential life lost, per 100,000) ⁽¹⁾					10127	8079	7972
Quality of life							
% Reporting poor or fair health, adults ⁽¹⁾		19	20	15	17	14	14
Average number of poor physical health days, adults ⁽¹⁾		4	4	3	3.7	3.2	3.3
Average number of poor mental health days, adults ⁽¹⁾		5	5	4	4.8	5.0	4.8
% Low birthweight, <2,500 grams	6.6	7	6.9	6.9	7	7	8
Health Factors							
Health Behaviors							
% Smokers, adults ⁽¹⁾		21	19	20	19	16	15
% Obese, adults age 20 and older ⁽¹⁾			37	36	40	37	34
Food environment index, 0 (worst) to 10 (best)	7.5	7.3	7	7.2	7.1	7.1	7.7
% Physically inactive, adults age 20 and older ⁽¹⁾			32	25	30	23	23
% Access to exercise opportunities ⁽¹⁾				81	80	80	84
% Excessive drinking, adults ⁽¹⁾		18	18	17	17	20	18
% Driving deaths with alcohol-involvement	16	15	6	6	0	20	26
Sexually transmitted infection rate, per 100,000 population	389	336	485	384	392.6	506.1	495.5
Teen birth rate, per 1,000 females age 15-19 ⁽¹⁾					27	19	17
Clinical Care							
% Uninsured, population under age 65	13	12	13	13	13	11	10
Primary care physicians rate, per 100,000 population	53	57	58	55	63	78	75
Dentists rate, per 100,000 population	50	47	55	56	56	63	74
Mental health providers rate, per 100,000 population	226	237	249	250	251	237	314
Preventable hospital stays rate, per 100,000 Medicare enrollees	4460	3755	4015	2712	2732	2576	2681
% Mammography screening, Medicare females age 65-74	41	40	44	36	46	48	43
% Flu vaccinations, Medicare enrollees	31	32	31	32	30	47	46
Social & Economic Factors							
% High school completion, adults age 25 and older ⁽²⁾		89	89	89	90	92	89
% With some college, adults age 25-44	58	61	60	59	61	71	68
% Unemployed, population age 16 and older	3.3	3.1	4.6	2.9	2.6	2.7	3.7
% Children in poverty	19	17	15	22	18	14	16

% Long commute - driving alone	11	10	11	10	11	22	36

Empty cells: Shaded cells indicate measures were omitted due to methodology change⁽¹⁾, new additions⁽²⁾, or are unavailable due to low reliability.

⁽³⁾Source data have not been updated since the 2023 County Health Rankings Release.

2024

The annual *County Health Rankings & Roadmaps* data release provides a snapshot of the health of each county in two summaries: **Health Factors** (which measure issues that can shape the health outcomes) and **Health Outcomes** (which measure length and quality of life). Each county is placed on a continuum from least healthy to healthiest in the nation and categorized into a group of counties with similar Health Outcomes or Health Factors. The following tables illustrate the “drivers” for health of this county.

What do these drivers mean?

The drivers indicate the measures with the greatest impact on the health of the county. Drivers labeled with a green plus sign are measures on which the county performed particularly well compared to all counties nationwide. Those labeled with a red minus sign are measures which could be improved and may warrant additional attention.

Health Factors: Drivers with the greatest impact on health, Barton County, KS - 2024

	Measure	Description	Factor Category	County Value	U.S. Value	Direction of Impact
1	Unemployment	Percentage of population ages 16 and older unemployed but seeking work.	Social and Economic Environment	2.6%	3.7%	+
2	Alcohol-Impaired Driving Deaths	Percentage of driving deaths with alcohol involvement.	Health Behaviors	0%	26%	+
3	Social Associations	Number of membership associations per 10,000 population.	Social and Economic Environment	19.8	9.1	+
4	Drinking Water Violations	Indicator of the presence of health-related drinking water violations. 'Yes' indicates the presence of a violation, 'No' indicates no violation.	Physical Environment	Yes		-
5	Adult Obesity	Percentage of the adult population (age 18 and older) that reports a body mass index (BMI) greater than or equal to 30 kg/m2 (age-adjusted).	Health Behaviors	40%	34%	-

Health Outcomes: Drivers with the greatest impact on health, Barton County, KS - 2024

	Measure	Description	Factor Category	County Value	U.S. Value	Direction of Impact
1	Low Birthweight	Percentage of live births with low birthweight (< 2,500 grams).	Quality of Life	7%	8%	+
2	Poor Mental Health Days	Average number of mentally unhealthy days reported in past 30 days (age-adjusted).	Quality of Life	4.8	4.8	+
3	Poor Physical Health Days	Average number of physically unhealthy days reported in past 30 days (age-adjusted).	Quality of Life	3.7	3.3	+
4	Premature Death	Years of potential life lost before age 75 per 100,000 population (age-adjusted).	Length of Life	10127	7972	-
5	Poor or Fair Health	Percentage of adults reporting fair or poor health (age-adjusted).	Quality of Life	17%	14%	+

N/A: Not applicable due to insufficient data.

+ Green Plus: Measure with a positive impact on a county’s health grouping.

- Red Minus: Measure with a negative impact on a county’s health grouping.

Technical Note: The U.S. values are provided as a point of reference. However, the drivers and direction of impact are determined by using the county value and the average across counties in the U.S. and then applying measure weights. Drivers are provided in order of impact on health for this year. Values have been rounded according to how they are presented on the County Health Rankings and Roadmaps website. For more information on the derivation of health groups, please visit: bit.ly/2024CHRzScores. For more information on data sources, year(s) of data and weights for measures, please visit bit.ly/2024CHRmeasures.
